

whole or in part at any time before the date of completion whenever it is determined that the award recipient has failed to comply with the conditions of the cooperative agreement. Examples of some of the conditions which can cause termination are failure to meet cost-sharing requirements; unsatisfactory performance of the NABDC work requirements; and reporting inaccurate or inflated claims of client assistance. Such inaccurate or inflated claims may be deemed illegal and punishable by law.

**False Statements**—A false statement on an application for Federal financial assistance is grounds for denial or termination of funds, and grounds for possible punishment by a fine or imprisonment as provided in 18 U.S.C. 1001.

**Primary Applicant Certifications**—All primary applicants must submit a completed Form CD-511,

“Certifications Regarding Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements and Lobbying.”

**Nonprocurement Debarment and Suspension**—Prospective participants (as defined at 15 CFR Part 26, Section 105) are subject to 15 CFR Part 26, “Nonprocurement Debarment and Suspension” and the related section of the certification form prescribed above applies.

**Drug-Free Workplace**—Grantees (as defined at 15 CFR Part 26, Section 605) are subject to 15 CFR Part 26, Subpart F, “Governmentwide Requirements for Drug-Free Workplace (Grants)” and the related section of the certification form prescribed above applies.

**Anti-Lobbying**—Persons (as defined at 15 CFR Part 28, Section 105) are subject to the lobbying provisions of 31 U.S.C. 1352, “Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions,” and the lobbying section of the certification form prescribed above applies to applications/bids for grants, cooperative agreements, and contracts for more than \$100,000, and loans and loan guarantees for more than \$150,000, or the single family maximum mortgage limit for affected programs, whichever is greater.

**Anti-Lobbying Disclosures**—Any applicant that has paid or will pay for lobbying using any funds must submit an SF-LLL, “Disclosure of Lobbying Activities,” as required under 15 CFR Part 28, Appendix B.

**Lower Tier Certifications**—Recipients shall require applications/bidders for subgrants, contracts, subcontracts, or other lower tier covered transactions at any tier under the award to submit, if

applicable, a completed Form CD-512, “Certifications Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions and Lobbying” and disclosure form, SF-LLL, “Disclosure of Lobbying Activities.” Form CD-512 is intended for the use of recipients and should not be transmitted to DOC. SF-LLL submitted by any tier recipient or subrecipient should be submitted to DOC in accordance with the instructions contained in the award document.

**Indirect Costs**—The total dollar amount of the indirect costs proposed in an application under this program must not exceed the indirect cost rate negotiated and approved by a cognizant Federal agency prior to the proposed effective date of the award or 100% of the total proposed direct costs dollar amount in the application, whichever is less.

**Buy American-Made Equipment or Products**—Applicants are hereby notified that they are encouraged, to the extent feasible, to purchase American-made equipment and products with funding provided under this program in accordance with Congressional intent as set forth in the resolution contained in Public Law 103-121, Sections 606 (a) and (b).

### Announcement of the American Petroleum Institute's Standards Activity

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of intent to develop a voluntary standard and request for public comments and participation in standard's development.

**SUMMARY:** The American Petroleum Institute (API), with the assistance of other interested parties, continues to develop standards, both national and international, in several areas. This notice lists the standardization effort currently being conducted. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of API is being undertaken as a public service. NIST does not necessarily endorse, approve, or recommend the proposed standard being referenced in this notice.

**SUPPLEMENTARY INFORMATION:** The American Petroleum Institute is developing a voluntary standard on which to base a voluntary program to accredit laboratories that perform testing on petroleum products [Petroleum Test Laboratories Accreditation Program (PTLAP)]. The program objective is to assist users in identifying laboratories which meet specific industry standards and to improve the quality of petroleum testing results. The proposed standard and subsequent program will consist of the following elements:

- Accredited laboratories having a quality system based on the requirements of ISO Guide 25, *General Requirements of the Competence of Calibration and Testing Laboratories*.
- Laboratories submitting to an on-site assessment by API-qualified assessors to establish compliance with program requirements. This assessment includes witnessing of test methods, evaluation of technical competence, and a quality system review.
- Laboratory participation in the ASTM Interlaboratory Crosscheck Program and the successful completion of one unannounced on-site assessment evaluation during the three-year accreditation period.

**DATES:** The voluntary standard is expected to be completed by March 1995 following peer review and an open meeting.

**ADDRESSES:** Comments regarding this proposal should be submitted to Roland Goodman, American Petroleum Institute, 1220 L Street NW., Washington, DC 20005, Telephone (202) 682-8189.

**FOR FURTHER INFORMATION CONTACT:** Roland Goodman, American Petroleum Institute, at above address, (202) 682-8189.

**Authority:** 15 U.S.C. 272.

Dated: February 14, 1995.

[Docket Number 950130031-5031-01]

**Proposed Voluntary Product Standard; PS 1-95 "Construction and Industrial Plywood"**

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of circulation of proposed Voluntary Product Standard PS 1-95 "Construction and Industrial Plywood."

**SUMMARY:** This is to advise the public that the National Institute of Standards and Technology is circulating a revision of Voluntary Product Standard PS 1-83 "Construction and Industrial Plywood" for review and comment. The revised standard, PS 1-95 "Construction and Industrial Plywood," is being processed in accordance with the provisions of the Department of Commerce "Procedures for the Development of Voluntary Product Standards" (15 CFR part 10, as amended; published June 20, 1986).

**DATES:** Written comments regarding the standard should be submitted to the Standards Management Program, Office of Standards Services, on or before May 8, 1995.

**ADDRESSES:** Written comments and requests for copies of PS 1-95 should be directed to the Standards Management Program, Office of Standards Services, National Institute of Standards and Technology, Gaithersburg, MD 20899.

**FOR FURTHER INFORMATION CONTACT:** Barbara Meigs, Office of Standards Services, National Institute of Standards and Technology, telephone: 301-975-4025, FAX: 301-963-2871.

**SUPPLEMENTARY INFORMATION:** The revision, PS 1-95, was developed by the Standing Committee for Voluntary Product Standard PS 1-83, composed of representatives of producers, distributors, and consumers of construction and industrial plywood, and others with an interest in the Standard. Among the major changes for PS 1-83 are the incorporation in PS 1-95 of a performance-based method for evaluating new species not previously listed, desirable due to the changing available timber resource for plywood production; and the elimination of Structural II panel grades since this product has rarely been manufactured since first introduced in 1966. The text of the Standard has been reformatted in some instances, and units of measurement throughout the Standard are provided in both metric and conventional units.

The Standard provides basic technical requirements for the principal types and grades of construction and industrial

plywood. It covers the wood species, veneer grading, glue bonds, panel construction and workmanship, dimensions and tolerances, marking, moisture content, and packing of plywood intended for construction and industrial uses. The Standard includes test methods to determine product compliance, a glossary of trade terms and definitions, and a quality certification program. Additional information is provided regarding reinspection practices.

**Authority:** 15 USC 272.
