

Table 1. These registrations are listed by registration number, product names/active ingredients and the specific uses deleted. Users of these products who desire continued use on crops or sites

being deleted should contact the applicable registrant before May 23, 1995 to discuss withdrawal of the applications for amendment. This 90-day period will also permit interested

members of the public to intercede with registrants prior to the Agency approval of the deletion.

TABLE 1. — REGISTRATIONS WITH REQUESTS FOR AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

EPA Reg No.	Product Name	Active Ingredient	Delete From Label
000869-00180	Green Light 10% Sevin Dust	Carbaryl	Poultry houses
019713-00046	Simazine 80W	Simazine	Asparagus, artichokes, sugarcane, non-cropland
019713-00060	Simazine 4L	Simazine	Asparagus, artichokes, sugarcane, non-cropland
019713-00252	Simazine 90DF	Simazine	Asparagus, artichokes, sugarcane, non-cropland
019713-00271	Simazine 80W Herbicide	Simazine	Asparagus, artichokes, sugarcane, non-cropland
019713-00273	Simazine 4L	Simazine	Asparagus, artichokes, sugarcane, non-cropland

The following Table 2 includes the names and addresses of record for all registrants of the products in Table 1, in sequence by EPA company number.

TABLE 2. — REGISTRANTS REQUESTING AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

Company No.	Company Name and Address
000869	Green Light Company, P.O. Box 17985, San Antonio, TX 78217.
019713	Drexel Chemical Company, P.O. Box 9306, 2487 Pennsylvania St., Memphis, TN 38190.

III. Existing Stocks Provisions

The Agency has authorized registrants to sell or distribute product under the previously approved labeling for a period of 18 months after approval of the revision, unless other restrictions have been imposed, as in special review actions.

List of Subjects

Environmental protection, Pesticides and pests, Product registrations.

Dated: February 10, 1995.

Daniel M. Barolo,

Director, Office of Pesticide Programs.

BILLING CODE 6560-50-F

[OPP-30380; FRL-4934-6]

LipTech, Inc.; Applications to Register Pesticide Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces receipt of applications to register pesticide products containing an active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by March 24, 1995.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP-30380] and the registration/file number, attention Product Manager (PM) 14, to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT:

Product Manager 14, Robert Forrest, Rm. 219, CM #2, (703-305-6600).

SUPPLEMENTARY INFORMATION: EPA received applications as follows to register pesticide products containing an active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

Products Containing an Active Ingredient Not Included In Any Previously Registered Products

1. File Symbol: 7173-ENU. Applicant: LipaTech, Inc., 3101 West Custer Ave., Milwaukee, WI 5320. Product name: Difethialone Technical. Rodenticide. Active ingredient: [(Bromo-4'-[biphenyl-1-1']-yl-4) 3-tetrahydro-1,2,3,4-naphthyl-1] 3-hydroxy-4, 2H-1 benzothiopyran-one-2 at 97.6 percent. Proposed classification/Use: None. For formulating other registered products. (PM 14)

2. File Symbol: 7173-ENL. Applicant: LipaTech, Inc. Product name: Difethialone Pellets. Rodenticide. Active ingredient: [(Bromo-4'-[biphenyl-1-1']-yl-4) 3-tetrahydro-1,2,3,4-naphthyl-1] 3-hydroxy-4, 2H-1 benzothiopyran-one-2 at 0.0025 percent. Proposed classification/Use: None. For indoor and outdoor (around buildings in urban areas) rodent control of house mice,

Norway rats, and warfarin resistant Norway rats. (PM 14)

3. File Symbol: 7173-ENA. Applicant: LipaTech, Inc. Product name: Difethialone Pellets Place Packs. Rodenticide. Active ingredient: [(Bromo-4'-[biphenyl-1-1']-yl-4)-3-tetrahydro-1,2,3,4-naphthyl-1] 3-hydroxy-4, 2H-1 benzothiopyran-one-2 at 0.0025 percent. Proposed classification/Use: None. For indoor and outdoor (around buildings in urban areas) rodent control of house mice, Norway rats, and warfarin resistant Norway rats. (PM 14)

Notice of approval or denial of an application to register a pesticide product will be announced in the **Federal Register**. The procedure for requesting data will be given in the **Federal Register** if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operation Division office at the address provided from 8 a.m. to 4 p.m., Monday through Friday, except legal holidays. It is suggested that persons interested in reviewing the application file, telephone the FOD office (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

Monsanto Co.; Initial Filings and Amendment of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has established and has amended temporary tolerances for residues of the hybridizing agent Genesis® (Mon 21250) [2-(4-chlorophenyl)-3-ethyl-2,5-dihydro-5-

oxo-4 pyridazinecarboxylic acid, potassium salt] in or on certain raw agricultural commodities.

DATES: These temporary tolerances expire March 4, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Robert J. Taylor, Product Manager (PM) 25, Registration Division (7505C) Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Room 241, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703)-305-6800.

SUPPLEMENTARY INFORMATION: EPA gives notice that it has established and amended temporary tolerances relating to the initial filing and amendment of tolerances for residues of the hybridizing agent Genesis® (Mon 21250), [2-(4-chlorophenyl)-3-ethyl-2,5-dihydro-5-oxo-4 pyridazinecarboxylic acid, potassium salt] in or on certain raw agricultural commodities as follows:

Initial Filing

1. *PP 3G4198.* Monsanto Company, The Agricultural Group, Suite 1100, 700 14th St., NW., Washington, DC 20005, has requested in pesticide petition (PP) 3G4198, the establishment of temporary rotational crop tolerances for residues of the wheat hybridizing agent Genesis® (Mon 21250), [2-(4-chlorophenyl)-3-ethyl-2,5-dihydro-5-oxo-4 pyridazinecarboxylic acid, potassium salt] in or on the raw agricultural commodities sorghum grain at 5 parts per million (ppm), sorghum fodder at 2 ppm, and sorghum forage at 2 ppm.

Amendment

2. *PP 3G4198.* EPA gives notice that the Agency has received an amendment for pesticide petition (PP) 3G4198, which previously published in the **Federal Register** of April 15, 1994 (59 FR 18118), stating that temporary tolerances had been established for residues of the hybridizing agent Genesis® (Mon 21250) and its metabolites [2-(4-chlorophenyl)-3-ethyl-2,5-dihydro-5-oxo-4 pyridazinecarboxylic acid, potassium salt] in or on the raw agricultural commodities wheat grain at 250 parts per million (ppm), wheat straw at 50 ppm, and wheat forage at 15 ppm.

Monsanto Company, The Agricultural Group, Suite 1100, 700 14th St., N.W., Washington, DC 20005, has requested an amendment to (PP) 3G4198 to establish a temporary tolerance for residues the hybridizing agent Genesis® (Mon 21250), [2-(4-chlorophenyl)-3-ethyl-2,5-dihydro-5-oxo-4

pyridazinecarboxylic acid, potassium salt] in or on the raw agricultural commodity wheat forage from 15 parts per million (ppm) to 10 ppm. These temporary tolerances will permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 524-EUP-80, which is being issued under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that the establishment of the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been established on the condition that the pesticides be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. Monsanto Co. must immediately notify the EPA of any findings from the experimental use permit that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire March 4, 1997. Residues not in excess of these amounts remaining in or on the raw agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on these pesticides indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirement of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).
