

television providers in Columbus. TCI and TeleCable are the two largest cable television providers in the Columbus area in terms of the number of subscribers and the number of homes passed.

the agreement containing consent order would, if finally issued by the Commission, settle charges alleged in the Commission's complaint that TCI's acquisition of TeleCable would substantially lessen competition in the distribution of multichannel video programming by cable television in the Columbus, Georgia, area, in violation of Section 7 of the Clayton Act. The nature of such competition to be preserved is actual competition to serve existing homes, hotels, and apartment complexes. The order will also preserve competition for providing cable service to new housing developments and other presently cabled portions of the Columbus area. The Commission's complaint further alleges that TCI's merger agreement with TeleCable violates Section 5 of the Federal Trade Commission Act.

The order accepted for public comment would require TCI to divest a cable television system in the Columbus, Georgia, area. If TCI fails to divest a system within one year, the order allows the Commission to appoint a trustee to sell a cable system. A hold separate agreement executed in conjunction with the consent agreement requires TCI, until completion of the divestiture (or as otherwise specified), to maintain TeleCable's Columbus cable system separate from TCI's other operations. For ten (10) years from the date the order becomes final, the order would also prohibit TCI, without obtaining prior Commission approval, from acquiring any cable television system in the Columbus, Georgia, area.

The purpose of this analysis is to invite public comment concerning the consent order. This analysis is not intended to constitute an official interpretation of the agreement and order or to modify their terms in any way.

By direction of the Commission.
