

Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider and respond to them in the final EIS.

To be most helpful, comments on the draft EIS should be as specific as possible and may address the adequacy of the statement or the merit of the alternatives discussed. Reviewers may wish to refer to the Council on Environmental Quality regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Responsible Official: Robert L. Schrenk, Forest Supervisor, Kootenai National Forest, 506 US Highway 2 West, Libby, MT 59923 is the Responsible Official. I have delegated the responsibility to prepare the Little Wolf Fire Salvage and Restoration Environmental Impact Statement to Lawrence A. Frobert, District Ranger, Libby Ranger District. As the Responsible Official I will decide which, if any, of the proposed projects will be implemented. I will document the decision and reasons for the decision in the Record of Decision. That decision will be subject to Forest Service Appeal Regulations.

Dated: February 13, 1995.

Robert L. Schrenk,

Forest Supervisor,

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: Current Population Survey — June 1995 Marital History and Fertility Supplement.

Agency Approval Number: 0607-0610.

Type of Request: Reinstatement, with change, of a previously approved collection for which approval has expired.

Burden: 5,035 hours.

Number of Respondents: 57,000.

Avg Hours Per Response: 5.3 minutes.

Needs and Uses: The Current Population Survey (CPS) is a survey conducted in a sample of approximately 57,000 households monthly throughout the United States. Data on demographic and labor force characteristics are collected from a sample of households which represent the U.S. population. The Bureau of the Census uses the data to compile monthly averages of

household size and composition, age, education, ethnicity, marital status and various other characteristics at the U.S. level. The Bureau of Labor Statistics also uses the data in its monthly calculations of employment and unemployment. The basic monthly questionnaire is periodically supplemented with additional questions which address specific needs. The marital history and fertility supplement provides data on marital stability and fertility and childbearing characteristics of female household members by various demographic characteristics. The data collected from this supplement are used primarily by government and private analysts to project future population growth, to analyze child spacing patterns and marital stability, and to assist policymakers in making decisions that are affected by changes in family size and composition. Questions on marital history have been asked in the CPS every 5 years since 1975. We have collected data on fertility and birth expectations in the CPS annually since 1971 (with the exception of 1989, 1991, and 1993).

Affected Public: Individuals or households.

Frequency: See above.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Maria Gonzalez, (202) 395-7313.
