7 CFR Parts 210 and 220

National School Lunch Program and School Breakfast Program: Compliance With the Dietary Guidelines for Americans and Food-Based Menu Systems; Correction

AGENCY: Food and Consumer Service, USDA.

ACTION: Proposed rule; correction.

SUMMARY: The Food and Consumer Service is correcting errors in the preamble and in the regulatory text to the proposed rule published on January 27, 1995, (60 FR 5513) entitled National School Lunch Program and School Breakfast Program: Compliance with the *Dietary Guidelines for Americans* and Food-Based Menu Systems.

FOR FURTHER INFORMATION CONTACT: Mr. Robert M. Eadie, Chief, Policy and Program Development Branch, Child Nutrition Division, Food and Consumer Service, USDA, 3101 Park Center Drive, Alexandria, Virginia, 22302; by telephone at 703-305-2620.

SUPPLEMENTARY INFORMATION:

Background

On January 27, 1995, the Department published a proposed rule to implement provisions of the Healthy Meals for Healthy Americans Act of 1994, requiring that a variety of meal planning approaches be made available to school food authorities, including "food-based menu systems," and that school meals comply with the *Dietary Guidelines for Americans*, as the Department also proposed on that date. However, the proposed rule as published contains errors in the preamble and regulatory text that need correction. In addition, readers should note that a portion of Appendix A-Regulatory Cost/Benefit Assessment: Food-Based Menu Systems, reflects an early draft of the proposal. The discussion of burden was based on a provision that contained

recordkeeping/reporting requirements that the Department subsequently decided not to propose.

Correction of Publication

Accordingly, the publication on January 27, 1995, is corrected as follows:

1. On page 5517, first column, in the first paragraph under the heading "*Grains/Breads*", the third to last sentence is corrected to read "For children in grades 7 through 12, the number of servings would be increased from 8 (10 recommended) to 15 *per week*."

2. On page 5518, in the second column, in line 11 of the first full paragraph, the reference to "June 10, 1995," is corrected to read "June 10, 1994."

§ 220.8 [Corrected]

3. On page 5521, in the chart entitled "Minimum Quantities:"

- a. in the column entitled "Ages 1-2," the reference in the second line to "1/2 ounce plus" is removed;
- b. in the column entitled "Preschool," the reference in the second line to "1/2 ounce plus" is removed;
- c. in the column entitled "Grades K-12," the reference in the second line to "1 ounce plus" is removed;
- d. in the column entitled "Grades 7-12," the reference in the second line to "2 ounces plus" is removed, the reference to "(4 ounces)" in line 9 is corrected to read "(2 ounces)," and the word "ounce" in line 10 is corrected to read "serving."

Dated: February 16, 1995.

The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Class E airspace area at Milledgeville, GA. A LOC RWY 28 SIAP has been developed for Baldwin County Airport. Additional controlled airspace extending upward from 700 feet AGL is needed to accommodate this SIAP and for IFR operations at the airport. Designations for Class E airspace extending upward from 700 feet or more above the surface are published in Paragraph 6005 of FAA Order 7400.9B dated July 18, 1994 and effective September 16, 1994, which is incorporated by reference in CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule,

when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria for the Regulatory Flexibility Act.
