Any party that wishes to explain to staff at the technical conference its concerns on the operational issues should contact Chris Young at (202) 208-0620 or Robert McLean at 208-1179 by February 28, 1995, to indicate who will speak; the amount of time desired; the specific issues that will be covered. Priority will be given to speakers representing groups of parties.

The second day will start with a continuation of any operational issues from the first day and any response by Tennessee. A discussion of specific tariff sheets will begin on the second day of the conference. The proposed changes filed by Tennessee will be discussed line by line. However, changes generating the most widespread concern such as cash out, imbalances, capacity path, FT-A extended and fixed rate contracts will be discussed first. After all the proposed tariff changes are reviewed, Account No. 858 issues will be discussed. At that point any remaining issues (such as GSR legal costs) will be discussed and a schedule for parties to file additional comments will be established.

A more detailed schedule for the conference, with speakers, will be made available on CIPS by Friday, March 3. Any further questions concerning the conference should also be directed to Chris Young or Robert McLean. There are lodging accommodations available at the Georgetown Conference Center as well as other hotels in the immediate vicinity. If you are interested in staying at the conference site, call 1-800-446-9476 and refer to the Tennessee Gas Pipeline Technical Conference.
