Nutrition Labeling of Meat and Poultry Products; Codification; Correction**AGENCY:** Food Safety and Inspection Service, USDA.**ACTION:** Final rule; correction.

SUMMARY: The Food Safety and Inspection Service (FSIS) is correcting an amendment to its final nutrition labeling regulations. The amendment was published in the **Federal Register** on January 3, 1995 (60 FR 174).

EFFECTIVE DATE: February 24, 1995.

FOR FURTHER INFORMATION CONTACT: Charles R. Edwards, Director, Product Assessment Division, Regulatory Programs, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC, (202) 254-2565.

SUPPLEMENTARY INFORMATION:**Need for Correction**

On January 3, 1995, FSIS published in the **Federal Register** (60 FR 174) an amendment to its final nutrition labeling regulations. The amendment provided codified language for provisions that previously cross-referenced those requirements that FSIS adopted, which were contained in the Food and Drug Administration's (FDA) final nutrition labeling regulations. In the January 3, 1995, publication, FSIS inadvertently omitted a provision in the poultry products inspection regulations that relates to the modified nutrition label format. Paragraph (g)(4) of 9 CFR 381.409 (which was paragraph (f)(4) in the nutrition labeling final rule (58 FR 632)) was omitted when revising 9 CFR 381.409. Therefore, FSIS is adding paragraph (g)(4) to § 381.409 of the poultry products inspection regulations.

9 CFR Parts 318 and 381

[Docket No. 90-010F]

Incorporation by Reference; Updating of Text; Correction**AGENCY:** Food Safety and Inspection Service, USDA.**ACTION:** Final rule; correction.

SUMMARY: The Food Safety and Inspection Service is amending the meat and poultry products inspection regulations to correct references to the "Official Methods of Analysis of the Association of Official Analytical Chemists" book of methods.

EFFECTIVE DATE: February 24, 1995.

FOR FURTHER INFORMATION CONTACT: Dr. Paula M. Cohen, Director, Regulations Development, Policy, Evaluation and Planning Staff, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250-3700, (202) 720-7164.

SUPPLEMENTARY INFORMATION: Title 1 of the Code of Federal Regulations (1 CFR part 51) requires that an Agency seeking approval of a change to a publication that is approved for incorporation by reference in the Code of Federal Regulations publish notice of the change in the **Federal Register** and amend the Code of Federal Regulations. The Agency must also ensure that a copy of the amendment or revision is on file at the Office of the Federal Register and notify the Director of the Federal Register in writing that the change is being made.

On June 30, 1994, at 59 FR 33641, the Food Safety and Inspection Service published a final rule updating references to the "Official Methods of Analysis of the Association of Official Analytical Chemists" (AOAC) book of methods in various sections of the Federal meat and poultry products inspection regulations. 9 CFR 318.19(b) contains two footnote reference errors.

These errors are corrected by removing footnote 1 from the first sentence of section 318.19(b) and renumbering footnote 2 of section 318.19(b) as footnote 1. In addition, there is also an incorrect footnote number in section 318.21(b)(3)(viii). Footnote five to section 318.21(b)(3)(viii) now reads as footnote 4. Finally, footnote 4 of 9 CFR 381.153(b)(3)(viii) was inadvertently omitted from the final regulations. It is now included as part of the text of section 381.153(b)(3)(viii).

The "Official Methods of Analysis of the Association of Official Analytical Chemists" (AOAC) book of methods has been previously approved for incorporation by reference. Because this amendment merely corrects errors in footnote references, it is found upon good cause that public participation in this rulemaking procedure is unnecessary and good cause is found for making the amendment effective less than 30 days after publication in the **Federal Register** (5 U.S.C. 553).

SUPPLEMENTARY INFORMATION:

Background

In 1972, Czechoslovakia completed the eligibility process for importation of meat products into the United States. The country maintained its eligibility until it split into two separate republics on January 1, 1993: the Czech Republic and the Slovak Republic.

In October 1993, inspection officials of the Czech Republic notified FSIS that the new country continues to maintain a meat inspection system under the same laws and regulations as existed when it was a part of Czechoslovakia. These laws and regulations were previously determined by FSIS to be "at least equal to" the meat inspection standards applied to products produced in the United States. Further, FSIS recently determined that the Czech Republic employs qualified and competent inspectors to ensure that the standards are effectively enforced for products prepared for importation into the United States.

The part of Czechoslovakia which became the Slovak Republic has never had any certified meat inspection plants nor had any meat or meat products imported into the United States. Due to this history and absence of other pertinent information, FSIS is uncertain if the Slovak Republic's meat inspection system is "at least equal to" that of the United States. Therefore, the Slovak Republic will be required to request and receive approval from FSIS before it will be deemed eligible to have its meat and meat products imported into the United States.
