#### Approval and Promulgation of Implementation Plans Tennessee: Approval of Revisions to the Tennessee Chapter on Volatile Organic Compounds (VOC)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State Implementation Plan (SIP) revisions submitted by the State of Tennessee for the purpose of establishing regulations for the control of Volatile Organic Compounds (VOC) which meet the requirements of section 182(b)(2) of the 1990 amendments to the Clean Air Act (CAA). In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by March 29, 1995.
