

program is being pursued by the states at the request of the Council. Similar EFPs were issued to 21 vessels in 1993 and 31 vessels in 1994 (58 FR 64296, December 6, 1993).

The Director, Northwest Region, NMFS, Regional Director has made a preliminary determination that the applications contain all of the required information and constitute a valid experimental program appropriate for further consideration.

At the October meeting of the Council, the Regional Director consulted with the Council and the directors of the state fishery management agencies concerning the applications for permits. The Council recommended that all three EFP applications be approved with terms and conditions similar to those applied to the EFPs in 1994. The decision on whether to issue EFPs and determinations on appropriate permit conditions will be based on a number of considerations, including the Council's recommendation and comments received from the public.
