

DC 20460. In person bring comments to: Rm. 1128, CM #2, 1921 Jefferson Davis Highway, Arlington, VA.

Information submitted and any comment(s) concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment(s) that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Information on the proposed text and any written comments will be available for public inspection in Rm. 1128 at the Virginia address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Rame' Cromwell (7505W), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 6th Floor, Westfield Building, 2800 Crystal Drive, Arlington, VA, (703) 308-8377.

SUPPLEMENTARY INFORMATION: The draft PR Notice provides explicit label statements prohibiting the use of insecticide products in occupied cabins of aircraft. It also provides registrants with two choices to comply: (1) Registrants of disinsection products with labels that permit use in occupied cabins and who seek to continue that use must generate and submit data to demonstrate that the use in occupied aircraft cabins does not pose unreasonable adverse effects to human health, and (2) registrants of all other disinsection products for use in aircraft should revise their labels in accordance with the instructions contained in the draft PR Notice to clearly prohibit use of their products in occupied aircraft cabins. This **Federal Register** notice announces the availability of the draft PR Notice and solicits comment. If, after reviewing any comments, EPA determines that changes are warranted, the Agency will revise the draft PR Notice prior to release.

BILLING CODE 6560-50-F

[OPP-50806; FRL-4937-7]

Receipt of an Application for an Experimental Use Permit of a Transgenic Plant Pesticide

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received an application (65247-EUP-R) from Calgene, Inc., of Davis, California, requesting an Experimental Use Permit (EUP) to conduct field testing of a transgenic plant pesticide. The first EUP for field testing of a genetically altered cotton plant having pesticidal properties was issued on April 10, 1992. EPA has determined that this permit may be of regional and national significance.

DATES: Written comments must be received on or before March 31, 1995.

ADDRESSES: Comments, in triplicate should bear the docket control number OPP-50806 and be submitted to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person bring comments to: Rm. 1128, Crystal Mall #2, 1921 Jefferson Davis Highway, Crystal City, VA 22202.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Written comments will be available for public inspection in Rm. 1128 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Janet L. Andersen, Acting Director, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: CS1 5th floor, 2800 Crystal

Drive, Crystal City, VA 22202 (703-308-8712).

SUPPLEMENTARY INFORMATION: An application for an EUP pursuant to EPA's Statement of Policy entitled "Microbial Products Subject to the Federal Insecticide, Fungicide, and Rodenticide Act and the Toxic Substances Control Act", published in the **Federal Register** of June 26, 1986 (51 FR 23313), was received on January 17, 1995, from Calgene, Inc. of Davis, California (65247-EUP-R).

Calgene, Inc. proposes to experiment in the field for 1 year, beginning April 1, 1995, with a transgenic insect resistant cotton plant which expresses a *Bacillus thuringiensis* subsp. *kurstaki* (B.t.k.) cryIA(c) segment within the plant cells. *Bacillus thuringiensis* subsp. *kurstaki* protein will be present at no more than .001 percent of the total weight of the cottonseed. The cryIA(c) gene of *Bacillus thuringiensis* is transferred to cotton via the Ti plasmid of *Agrobacterium tumefaciens*, a vector system which has been used to stably transform many plant pesticides. All transgenic plants to be used in this field trial are upland cotton *Gossypium hirsutum*.

The 1995 Program as proposed by Calgene, Inc. will include four types of field trials. Target lepidopteran pests include: *Helicoverpa zea* (Cotton bollworm); *Pectinophora gossypiella* (Pink bollworm); *Heliothis virescens* (Tobacco budworm); *Spodoptera exigua* (Beet armyworm), *Spodoptera frugiperda* (Fall armyworm) and other lepidopteran insects pest of cotton. A total of 2,460 pounds of transgenic cottonseed will be planted on 0.5 to 20 acre sites for a total of 164 acres. The total amount of active ingredient used for 164 acres will be 11.3 grams, the amount of active ingredient to be tested per state is less than 1.5 gram. Testing will be conducted from April 1, 1995 to December 15, 1995, at research stations or seed production fields in the following states: Alabama, Arizona, Arkansas, California, Georgia, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee, and Texas.

A breeding nursery trial will be conducted to: (1) Evaluate and compare the efficacy of transgenic strains in control of lepidopteran target pests; (2) evaluate and select for agronomic performance of prospective strains for commercialization, and (3) evaluate production of purity blocks to minimize variability of seed within potential strains for commercialization. Strain trials will be conducted to compare advanced *Bacillus thuringiensis* cotton

strains to common commercial varieties for agronomic characteristics and fiber quality. There will be a maximum of 0.5 to 1 acre of transgenic planting per site. Research trials will be performed to: (1) Evaluate B.t. trait performance against target pests; (2) formulate plans for resistance management in B.t. cotton, and (3) provide recommendations for integrated pest management utilizing B.t. cotton. There will be a maximum of 0.5 to 2 acres of transgenic planting per site. Seed multiplication trials will be conducted for the purposes of ensuring seed purity for further research and development. There will be a maximum of 15 acres of transgenic planting per site.

Containment procedures will be employed to minimize dissemination via pollen transfer or seed dispersal. A non-transgenic border will be planted and maintained should cotton be present within 1,320 feet of the transgenic trial. Upon completion of the tests, all plants (transgenic, non-transgenic control lines, and non-transgenic buffer) will be destroyed via bush-hog, or shred and disk. Unused seed will be destroyed by incineration, autoclaving, plowed under, or returned to the designated seed company. Monitoring will occur through the next growing season. The occurrence of subsequent cotton volunteers will be destroyed by soil incorporation or herbicide application. Transgenic seed will be stored in marked bags. Equipment will be thoroughly cleaned before and after field trials.

The labeling proposed by Calgene, Inc. that would govern the conduct of the experiment states:

This package contains insect resistant cottonseed expressing a *Bacillus thuringiensis* subsp. *kurstaki* (B.t.k.) protein. B.t.k. protein is effective in controlling certain lepidopteran insects. For use only at an application site of a cooperator and in accordance with the terms and conditions of the Experimental Use Permit. This labeling must be in the possession of the user at the time of planting. Not for sale to any person other than a participant or cooperator of the EPA approved Experimental Use Permit Program. The contents may only be used according to the approved EUP program. Cooperators must have at least one copy of each applicable protocol prior to initiating any research with the contents.

Following the review of the Calgene, Inc. application and any comments received in response to this notice, EPA will decide whether to issue or deny the EUP request for this EUP program, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

BILLING CODE 6560-50-F

EXECUTIVE OFFICE OF THE PRESIDENT

Open Meetings of Policy Dialog Advisory Committee To Assist in the Development of Measures to Significantly Reduce Greenhouse Gas Emissions From Personal Motor Vehicles

AGENCY: Executive Office of the President.

ACTION: Meetings of policy dialog advisory committee.

SUMMARY: The Executive Office of the President has established a Policy Dialog Advisory Committee to assist in the development of measures to significantly reduce greenhouse gas emissions from personal motor vehicles. The seventh meeting of this committee will be held on March 15 and 16, 1995. The eighth meeting will be held on April 12 and 13, 1995. The committee's meetings are open to the public without need for advance registration.

DATES: In March, the committee will meet on March 15, 1995 from 9:30 a.m. to 5:30 p.m., and on March 16, 1995 from 8:30 a.m. to 4:30 p.m. In April, the committee will meet on April 12, 1995 from 9:30 a.m. to 5:50 p.m., and on April 13, 1995 from 8:30 a.m. to 4:40 p.m.

ADDRESSES: Both sessions of both the March and April meetings will be held in Room 2230 at the United States Department of Transportation, 400 7th Street SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: For information pertaining to the substantive issues to be dealt with by the advisory committee, contact: Ellen Seidman, Special Assistant to the President for Economic Policy, Washington, D.C. 20500, phone (202) 456-2802, fax (202) 456-2223; Henry Kelly, Assistant Director for Technology, Office of Science and Technology Policy, phone (202) 456-6034, fax (202) 456-6023; Wesley Warren, Associate Director, Council on Environmental Quality, phone (202) 456-6224, fax (202) 456-2710; or Michael Toman, Senior Economist, Council of Economic Advisors, phone

(202) 395-5012, fax (202) 395-6853. For information pertaining to administrative matters contact: Deborah Dalton, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, phone (202) 260-5495.

Information about the Committee is also available on the Technology Transfer Network of the Office of Air Quality Planning & Standards of the Environmental Protection Agency, which can be accessed electronically by calling (919) 541-5742. Help in accessing the system can be obtained by calling (919) 541-5384 between 1:00 and 5:00 Eastern Standard Time. Neither of these numbers is a toll-free number. The Committee's toll-free information line—1-800-884-9190—provides recorded information about the Committee, including meeting dates and locations. (In the local Washington, DC area, call (202) 366-2373.)

Agenda For The Meetings

At the March meeting, the Committee will:

- Review the revised draft of the interim report, with a view toward agreement on the report so it can be submitted to the President by the March 28 due date;
- Adopt final committee protocols;
- Discuss assumptions in baseline scenarios with a goal of finalizing agreements;
- Hold meetings of ad hoc policy groups on vehicle miles travelled and alternative fuels to further develop policy options and begin analysis and receive reports from the ad hoc policy groups; and
- Discuss fuel economy policy mechanisms.

At the April meeting, the committee will continue policy development and analysis of policy options.

Dated: February 27, 1995.

W. Bowman Cutter,

Deputy Assistant to the President for Economic Policy.

John H. Gibbons,

Director, Office of Science and Technology Policy.

Kathleen A. McGinty,

Chair, Council on Environmental Quality.
