Indicated Shippers v. Sea Robin Pipeline Company; Notice of Complaint and Request for Initiation of Investigation of Transportation Rates of Sea Robin Pipeline Company

February 23, 1995.

Take notice that on February 16, 1995, Amoco Production Company, Amoco Energy Trading Corporation, Exxon Corporation, OXY USA Inc., Phillips Gas Marketing Company and Phillips Petroleum Company (Indicated Shippers) filed a complaint under Section 5 of the Natural Gas Act (NGA) 15 U.S.C. 717d (1988) and Section 5 of the Outer Continental Shelf Lands Act (OCSLA), 43 U.S.C. 1334 (1988) against Sea Robin Pipeline Company (Sea Robin) alleging that the maximum transportation rates currently being charged by Sea Robin are unjust, unreasonable or otherwise unlawful. The Indicated Shippers further request that the Commission immediately institute an investigation to determine whether Sea Robin's rates are unjust, unreasonable or otherwise unlawful, and to determine just and reasonable rates on a prospective basis.

Sea Robin's currently effective rates are based on the January 5, 1990 settlement in Sea Robin's last general Section 4 rate case in Docket No. RP88-181. This settlement was approved by the Commission on April 18, 1990 (51 FERC ¶ 61,046, reh'g. denied 51 FERC ¶ 61,315 (1990)). Since that time, the Indicated Shippers assert, Sea Robin's throughput has increased by approximately 52% and that in the 1991-1993 time period, Sea Robin's annual return on net plant has averaged approximately 50%. The Indicated Shippers estimate that Sea Robin's just and reasonable maximum rates, if based on current throughput and costs, would be at least 30% less than Sea Robin's currently effective rates.

Based largely on data taken from Sea Robin Form 2 reports, the Indicated Shippers claim that Sea Robin's just and reasonable maximum IT rate should not exceed 5.9¢/MMBtu. Consistent with Commission precedent in United Gas Pipe Line Company and ANR Storage Company, 47 FERC ¶ 61,285 (1989), the Commission is requested to order Sea Robin to file a cost and revenue study

and other schedules in accordance with 18 CFR 154.63(e)(2) and 154.63(f) as well as other documents sufficient to allow interested parties to fully evaluate Sea Robin's current cost-of-service and to permit the establishment of just and reasonable rates.

Any person desiring to be heard or to protest said complaint should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure 18 CFR 385.214, 385.211. All such motions or protests should be filed on or before March 27, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. Answers to this complaint shall be due on or before March 27, 1995.
