Diamond Tool and Horseshoe Company, Duluth, Minnesota; Notice of Revised Determination on Reconsideration

On February 14, 1995, the Department issued an Affirmative Determination

Regarding Application for Reconsideration for the former workers of the subject firm. The notice will soon be published in the **Federal Register**.

The subject plant ceased operations in September, 1994 and all workers were laid off at that time.

U.S. imports of pliers, wrenches, horse and mule shoes increased in 1993 compared to 1992 and in the latest 12-month period ending in August 1994 compared to the same period ending in August 1993.

On reconsideration, the workers submitted a new list of customers who decreased their purchases from the subject firm in the relevant time periods. New findings on reconsideration show that customers accounting for a substantial portion of Diamond Tool's sales decline in 1993 and in the first six months of 1994 compared to their immediate earlier respective periods increased their purchases of imports in the same periods.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the former workers of the Diamond Tool and Horseshoe Company in Duluth, Minnesota were adversely affected by increased imports of articles that are like or directly competitive with horseshoes, wrenches and pliers and related equipment.

In accordance with the provisions of the Act, I make the following revised determination for workers of the Diamond Tool and Horseshoe Company in Duluth, Minnesota.

"All workers and former workers of Diamond Tool and Horseshoe Company, Duluth, Minnesota who became totally or partially separated from employment on or after April 14, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 17th day of February, 1995.

Program Director, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
