### Becoming and Intervenor

In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding or become an "intervenor". Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide copies of its filings to all other parties. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 3).

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by § 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your scoping comments considered.

Additional information about the proposed project is available from Ms. Laura Turner, EA Project Manager, at (202) 208-0916.

### [Docket No. RP94-273-001]

#### Columbia Gas Transmission Corp.; Request for Waiver of Tariff Provision

February 24, 1995.

Take notice that on February 16, 1995, Columbia Gas Transmission Corporation (Columbia), pursuant to Rule 212 of the Commission's Rules of Practice and Procedure, filed with the Commission a request to extend a previously granted waiver of the nine-month closeout period contained in Section 39 of the General Terms and Conditions of its FERC Gas Tariff from March 31, 1995, to and including resolution of an imbalance issue presently existing between Columbia and Tennessee Gas Pipeline Company (Tennessee). Columbia states that the requested extension is for nine months, or to December 31, 1995.

Columbia states that after several months of intensive efforts to reconcile imbalances, Columbia was unable to confirm those imbalances with several interconnecting pipelines and transportation customers, and, therefore, originally sought permission to extend the closeout period in Section 39 through March 31, 1995. On October 5, 1994, the Commission granted the requested extension.

Columbia states that since the Commission's October order, Columbia has worked to resolve its remaining historical imbalance dispute with third parties, but has been unable to resolve its imbalance with Tennessee. Columbia states that it is working diligently with Tennessee to resolve these issues, but cannot have them resolved by March 31, 1995.

Columbia states that in order to permit an orderly resolution of issues involving the termination of its Account No. 191, and collection of the remaining balance, Columbia requests that the Commission extend the nine-month

closeout period from March 31, 1995, to December 31, 1995.

Any person desiring to be heard or to protest the said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 3, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
