

into twenty-eight (28) parcels of land including roadways and utilities. The airport parcel, including two (2) nonaviation revenue producing parcels, will be conveyed at no-cost via public benefit conveyance for airport purposes. The FAA has jurisdiction by law regarding reuse of the runways and associated facilities as a civilian airport. A decision, if any, by the FAA to approve an airport layout plan will be announced by a separate ROD issued by the FAA based on the analysis in the FEIS and any additional FAA analysis that may be required. Three (3) parcels will be assigned to the Department of Health and Human Services (HHS) for disposal as a public benefit conveyance for homeless assistance purposes and three (3) parcels will be assigned to the Department of Education for disposal as a public benefit conveyance for educational purposes. Seven (7) parcels are to be offered for negotiated sale, one (1) of which consists of a building only. The road network is an integral part of all the parcels. Primary roads may be conveyed by negotiated sale to an eligible public body. Secondary roadways that are completely within a parcel will be included as part of the parcel. The utility systems, such as gas and electric, are totally integrated systems, prohibiting their separation among the various parcels. Therefore, disposal of utility systems will include conditions under which the recipient must provide service to all parcels. The gas and electric systems, with appropriate easements for maintenance and repair, will be conveyed through negotiated sale to utility purveyors, or eligible public bodies. Water and wastewater systems are required to support redevelopment efforts and is contingent on the recipient continuing to provide the necessary service to all parcels. Therefore, water wastewater systems will be assigned to HHS contingent upon a formal request for conveyance for the protection of public health.

The implementation of the closure and reuse action and associated mitigation measures will proceed with minimal adverse impact to the environment. This action conforms with applicable Federal, State and local statutes and regulations, and all reasonable and practical efforts have been incorporated to minimize harm to the local public and the environment.

Any questions regarding this matter should be directed to Mr. John E.B. Smith or Ms. De Carlo Ciccel at (703) 696-5540. Correspondence should be sent to: AFBCA/SP, 1700 North Moore

Street, Suite 2300, Arlington, VA 22209-2802.
