

preparing a PRS which will include budgeted OM&R and repayment costs for the PRP. The revenue requirement shown in this PRS will not be dependent upon the power and energy made available for sale, or the rate of generation each year. The amount of each monthly payment for the following FY shall be established in advance by Western and submitted to each contractor on or before August 31 of the year preceding the appropriate FY.

The preparation of each FYs PRS shall include adjustment to the figures used in the previous year's PRS to incorporate final financial and operational data for the prior FY. Any adjustments required, whether resulting in an increase or decrease of the annual sum due, will be added to the FY then being calculated, and divided over 12 equal monthly installments.

Minor replacements and additions will be included in annual OM&R expenses. If replacements and/or additions exceeding \$5,000.00, but no greater than \$25,000.00, in cost are needed, the contractors will be given the option of financing the cost through their own non-Federal sources or having the cost financed by the Federal Government and amortized and paid over the lesser of the average life of the replacement or 50 years, whichever is less. Additions will be amortized over 50 years. If financed with Federal funds, the cost will be capitalized at the then-current interest rate prescribed by DOE, pursuant to RA 6120.2 11B, "Basic Policy for Rate Adjustments; Interest Rate Formula," in the FY in which funds are first expended for the replacement or addition.

If replacements over \$25,000.00 are needed, the contractors will consult with Reclamation, the PRWUA, and Western about financing the replacement.

The proposed formula constitutes a minor rate adjustment as defined by the procedures for public participation in general rate adjustments covered in 10 CFR 903.2(f). The PRP's annual sales are less than 100 million kWh and installed capacity is less than 20,000 kW.

Comments

During the 30-day comment period, Western received no written comments either requesting information or commenting on the formula. Comments were received in response to the revised, PRP-MP **Federal Register** notice dated July 11, 1994 (59 FR 35334). Comments were accepted on Western's revised PRP-MP proposal until August 10, 1994. These comments were addressed in the PRP-MP **Federal**

Register notice dated November 21, 1994 (59 FR 60007).

Environmental Evaluation

In compliance with the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*; Council on Environmental Quality Regulations (40 CFR Parts 1500-1508); and DOE NEPA Regulations (10 CFR Part 1021), Western has determined that this action is categorically excluded from the preparation of an environmental assessment or an environmental impact statement.

Executive Order 12866

DOE has determined that this is not a significant regulatory action because it does not meet the criteria of Executive Order 12866, 58 FR 51735. Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Availability of Information

Information regarding this rate order, including PRSs, comments, letters, memorandums, and other supporting material made or kept by Western for the purpose of developing the revenue-recovery methodology, is available for public review at the following offices: Western Area Power Administration, Salt Lake City Area Office, Office of the Assistant Area Manager for Power Marketing, 257 East 200 South, Suite 475, Salt Lake City, UT 84111

Submission to Federal Energy Regulatory Commission

The formula for determining annual, power-related payments herein confirmed, approved, and placed into effect on an interim basis, together with supporting documents, will be submitted to FERC for confirmation and approval on a final basis.

Order

In view of the foregoing and pursuant to the authority delegated to me by the Secretary of Energy, I confirm and approve on an interim basis, effective April 1, 1995, the method of cost recovery for the Provo River Project. The procedure shall remain in effect on an interim basis, pending Federal Energy

Regulatory Commission confirmation and approval of it or a substitute process on a final basis, through March 31, 2000.

Issued in Washington, DC, February 16, 1995.

Bill White,

Deputy Secretary.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-1039-DR]

Alaska; Amendment to Notice of a Major Disaster Declaration

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice amends the notice of a major disaster for the State of Alaska (FEMA-1039-DR), dated September 13, 1994, and related determinations.

EFFECTIVE DATE: February 16, 1995.

FOR FURTHER INFORMATION CONTACT: Pauline C. Campbell, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3606.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated February 16, 1995, the President amended the cost-sharing arrangements concerning Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), in a letter to James L. Witt, Director of the Federal Emergency Management Agency, as follows:

I have determined that the damage in certain areas of the State of Alaska, resulting from severe storms and flooding on August 8, 1994 through September 15, 1994, is of sufficient severity and magnitude that special cost-sharing conditions are warranted under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act") for the Public Assistance program.

Therefore, I amend my previous declaration to authorize Federal funds for Public Assistance to be provided at 85 percent of the eligible costs.

This adjustment to State and local cost sharing applies only to Public Assistance costs eligible for such adjustment under the law. The law specifically prohibits a similar adjustment for funds provided to States for the Individual and Family Grant program. These funds will continue to be reimbursed at 75 percent of total eligible costs.

Please notify the Governor of the State of Alaska and the Federal Coordinating Officer of this amendment to my major disaster declaration.

James L. Witt,

Director.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 94E-0360]

Determination of Regulatory Review Period for Purposes of Patent Extension; Albinex®

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) has determined the regulatory review period for Albinex® and is publishing this notice of that determination as required by law. FDA has made the determination because of the submission of an application to the Commissioner of Patents and Trademarks, Department of Commerce, for the extension of a patent which claims that medical device.

ADDRESSES: Written comments and petitions should be directed to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Brian J. Malkin, Office of Health Affairs (HFY-20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-1382.

SUPPLEMENTARY INFORMATION: The Drug Price Competition and Patent Term Restoration Act of 1984 (Pub. L. 98-417) and the Generic Animal Drug and Patent Term Restoration Act (Pub. L. 100-670) generally provide that a patent may be extended for a period of up to 5 years so long as the patented item (human drug product, animal drug product, medical device, food additive, or color additive) was subject to regulatory review by FDA before the item was marketed. Under these acts, a product's regulatory review period forms the basis for determining the amount of extension an applicant may receive.

A regulatory review period consists of two periods of time: A testing phase and an approval phase. For medical devices, the testing phase begins with a clinical investigation of the device and runs until the approval phase begins. The
