BILLING CODE 3410-34-P

9 CFR Part 77

[Docket No. 94-053-3]

Tuberculosis in Cattle and Bison; State Designation

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Affirmation of interim rule as final rule.

SUMMARY: We are adopting as a final rule, without change, an interim rule that amended the tuberculosis regulations concerning the interstate movement of cattle and bison by reducing the designation of Virginia from an accredited-free (suspended) State to a modified accredited State. We have determined that Virginia no longer meets the criteria for designation as an accredited-free (suspended) State but meets the criteria for designation as a modified accredited State. This change was necessary to prevent the spread of tuberculosis in cattle and bison.

EFFECTIVE DATE: April 3, 1995.

SUPPLEMENTARY INFORMATION:**Background**

In an interim rule effective and published in the Federal Register on November 29, 1994 (59 FR 60885-60886, Docket No. 94-053-2), we amended the tuberculosis regulations in 9 CFR part 77 by removing Virginia from the list of accredited-free (suspended) States in § 77.1 and adding it to the list of modified accredited States in that section.

Comments on the interim rule were required to be received on or before January 30, 1995. We did not receive any comments. The facts presented in the interim rule still provide a basis for the rule.

The action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12778, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived the review process required by Executive Order 12866.
