Creve Coeur Lake Memorial Park Final Supplemental Environmental Impact Statement

AGENCY: National Park Service, Interior.

ACTION: Availability of final supplemental environmental impact statement for determination of section 6(f)(3) replacement lands for Creve Coeur Lake Memorial Park (CCLMP), St. Louis County, Missouri.

SUMMARY: The National Park Service (NPS), in compliance with Section

102(2)(c) of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321 *et seq.* and 4332, as amended, and with Section 6(f)(3) of Title 1 of the Land and Water Conservation Fund Act (L&WCF), 16 U.S.C. 4601-(8)(f), as amended, announces the availability of a final supplemental environmental impact statement (FSEIS) evaluating and selecting additional replacement land for land in CCLMP converted from outdoor recreation use as a result of the Page Avenue Extension. It is determined that a total of 207 acres will be impacted by the proposed "Red Route" of significant magnitude to adversely affect present park activities and environment. CCLMP, a county park which has received Federal financial assistance from the L&WCF program, must comply with the requirements of Section 6(f)(3) of the L&WCF Act as it pertains to maintaining outdoor recreation use of all Federally assisted park and recreation areas. This FSEIS is a supplement to the final environmental impact statement (FEIS) for Page Avenue (Route D) extension, St. Louis and St. Charles Counties, Missouri, approved in a Record of Decision on January 6, 1993, by the Federal Highway Administration (FHWA).

The FHWA FEIS addressed construction of a 10-lane elevated extension of Page Avenue across the southern tip of the park site assuming all necessary coordination with other Federal agencies has been satisfactorily accomplished. The NPS on December 11, 1992, adopted the FEIS for use in the environmental evaluation requirements of Section 6(f)(3) of the L&WCF Act.

The initial proposal of 264.78 acres, revised to 258.48 acres and submitted by the State of Missouri to replace the converted 183.4 acres, revised to 207.0 acres, was determined by the NPS as not offering "reasonably equivalent usefulness" to the extent necessary to reflect appropriately the loss of this unique natural area. Secretary Babbitt announced on May 18, 1993, in letters to Senators Danforth and Bond, that he did not intend to use his authority under section 6(f)(3) to block the construction of this highway project. He further stated that "* * * it is necessary to identify a significant amount of additional lands to be included in the mitigation package."

The FSEIS identifies eight potential alternative land proposals and a "no action" alternative for consideration in meeting section 6(f)(3) requirements of the L&WCF Act. Four alternatives were evaluated in detail; three others were eliminated after initial consideration; and one proposed alternative, identified by the Howard Bend Levee District
