BILLING CODE 6717-01-M

[Docket No. RP95-175-000]

Mojave Pipeline Company; Rate Filing

March 1, 1995.

Take notice that on February 27, 1995, Mojave Pipeline Company (Mojave), tendered for filing a notice of rate filing concerning Tariff, First Revised Volume No. 1. Mojave is tendering revised tariff sheets for filing and acceptance to become effective March 1, 1995.

Mojave states that based upon test period data, Mojave projects an annual

revenue deficiency in excess of \$6 million under its currently effective rates as a result of actual increases in its cost of service. Notwithstanding such prospective revenue deficiency, Mojave does not propose to increase the level of its currently effective rates, nor does it propose to modify the rate design underlying such rates established in Mojave's Order No. 636 restructuring proceeding. Rather, Mojave's rate filing proposes to continue the effectiveness of its current rates and rate design, and thus to recover the same level of revenues it is allowed to collect under its currently effective tariff.

Mojave is proposing to modify the currently effective crediting mechanism for revenues derived from interruptible transportation established in Mojave's Order No. 636 restructuring proceeding. Under such mechanism, ninety percent of the amounts in excess of Mojave's \$0.0010 Minimum Interruptible Rate collected from Mojave's interruptible shippers under Rate Schedule IT-1 are credited to Mojave's firm shippers in proportion to their respective firm contract quantities, while the remaining ten percent (10%) of such amounts are retained by Mojave.

Mojave proposes to eliminate this crediting mechanism in light of the minimal revenues from interruptible service experienced during the base period, and Mojave's inability to project interruptible revenues.

Mojave states that copies of the notice were served upon all of Mojave's firm and interruptible transportation customers and all interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Parts 385.214 and 351.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 8, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
