NATIONAL INDIAN GAMING COMMISSION

Notice of Approval of Class III Tribal Gaming Ordinances

AGENCY: National Indian Gaming Commission.

ACTION: Notice.

SUMMARY: The purpose of this notice is to inform the public of class III gaming ordinances approved by the Chairman of the National Indian Gaming Commission.

FOR FURTHER INFORMATION CONTACT: Christine Lambert at (202) 632-7003, or by facsimile at (202) 632-7066 (not toll-free numbers).

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulator Act (IGRA) 25 U.S.C. 2701 *et seq.*, was signed into law on October 17, 1988. The IGRA established the National Indian Gaming Commission (the Commission). Section 2710 of the IGRA authorizes the Commission to approve class II and class III tribal gaming ordinances. Section 2710(d)(2)(B) of the IGRA as implemented by 25 CFR 522.8 (58 FR 5811 (January 22, 1993)), requires the Commission to publish, in the Federal Register, approved class III gaming ordinances.

The IGRA requires all tribal gaming ordinances to contain the same requirements concerning ownership of the gaming activity, use of net revenues, annual audits, health and safety, background investigations and licensing of key employees. The Commission, therefore, believes that publication of each ordinance in the Federal Register would be redundant and result in unnecessary cost to the Commission. The Commission believes that publishing a notice of approval of each class III gaming ordinance is sufficient to meet the requirements of 25 U.S.C. 2710(d)(2)(B). Also, the Commission will make copies of approved class III ordinances available to the public upon request. Requests can be made in writing to: National Indian Gaming Commission, 1850 M St., NW, Suite 250, Washington, DC 20036.

The Chairman has approved tribal gaming ordinances authorizing class III gaming for the following Indian tribes:

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-440]

Cleveland Electric Illuminating Co. et al., Perry Nuclear Power Plant, Unit No. 1; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. NPF-58, issued to the Cleveland Electric Illuminating Company, et al. (the licensee), for operation of the Perry Nuclear Power Plant, Unit No. 1 (PNPP), located in Lake County, Ohio.

Environmental Assessment

Identification of Proposed Action

The proposed action would revise the Technical Specifications (TS) to make them consistent with the current requirements of part 55 of Title 10 of the Code of Federal Regulations (10 CFR part 55), to delete training requirements that have been superseded by 10 CFR 50.120, and to allow an Operations Middle manager to hold a PNPP Senior Reactor Operator (SRO) license in lieu of the Operations Manager.

The proposed action is in accordance with the licensee's applications for amendment dated September 27, 1993, and December 16, 1994.

The Need for the Proposed Action

The proposed action, in the form of TS amendments is needed because training and qualification requirements have evolved over the past few years resulting in the obsolescence of some TS requirements. In addition, the alternative of allowing an Operations middle manager to hold a PNPP SRO license would allow the Operations Manager to return to normal duties following classroom training to continue with efforts to improve the operational performance of PNPP.

Environmental Impacts of the Proposed Action

The NRC staff has completed its evaluation of the proposed action and concludes that there will be no changes to the facility, to the training requirements, or to the intent of the qualification requirements as a result of the proposed license amendment.

Accordingly, the NRC staff concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not affect the
