

essentially the same as the Diamond Mountain Proposed Resource Management Plan and Final Environmental Impact Statement (PRMP/FEIS). No changes to the proposed decisions have been made. However, some clarifying language has been included as a result of four protests the BLM received on the PRMP/FEIS. The clarifying language concerned the intent of the priority management level concept as used in the PRMP/FEIS; current livestock forage assignments and practices as affected by wildlife reintroductions and recreation area developments; and corrective actions involving existing airports in trespass. Five alternatives that encompass a spectrum of realistic management options were considered in the planning process. The final plan is a mixture of the management objectives and actions that, in the opinion of the BLM, best resolve the issues and concerns that drove the preparation of the plan.

Wild and Scenic Rivers

The Upper Green River Segment (between Little Hole and the Colorado stateline) is determined to be suitable and recommended for designation as a scenic river.

The Lower Green River Segment (between public land boundary south of Ouray and the Carbon County line) is determined to be suitable as a scenic river. This segment is not recommended for designation because studies have not yet been completed on the adjacent downstream segment through Desolation Canyon.

Areas of Critical Environmental Concern (ACEC)

The plan designates the following seven areas as ACECs: Browns Park Complex (55,700 public acres), Lears Canyon (1,400 public acres), Lower Green River (7,900 public acres), Nine Mile Canyon (50,800 public acres), Pariette Wetlands (11,600 public acres), Red Creek Watershed (24,200 public acres), and Red Mountain-Dry Fork Complex (25,800 public acres). Coordinated resource management activity plans will be prepared for each ACEC to detail protective measures.

G. William Lamb,

Acting State Director.

Conformance to Survey; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice provides official publication of the surveyed description for the Noatak National Guard Site at Noatak, Alaska. The site was withdrawn by Public Land Order No. 2020 for use by the Department of the Army. The plat of survey was officially filed in the Department of the Interior, Bureau of Land Management, Washington, D.C., on June 21, 1961. United States Survey No. 3778, Lot 3, containing 0.50 acre, represents the land that was previously described as follows:

A tract of land on the Noatak River, north of Kotzebue, at approximate latitude 67°35' N., longitude 163°00' W. Beginning at Corner No. 1 of U.S. Survey No. 2037, being the northwest corner thereof;

Thence along an extension of the west line of U.S. Survey No. 2037, N. 18°51' E., 29 feet;

Thence N. 71°09' W., 180 feet;

Thence N. 14°58' W., 221.49 feet to the point of beginning;

Thence N. 68°18' W., 140 feet;

Thence N. 21°42' E., 200 feet;

Thence S. 68°18' E., 220 feet;

Thence S. 21°42' W., 200 feet;

Thence N. 68°18' W., 80 feet to the point of beginning.

The area as described contained approximately 1.01 acres.

ADDRESSES: Inquiries about this land should be sent to the Alaska State Office, Bureau of Land Management, 222 W. 7th Avenue, No. 13, Anchorage, Alaska 99513-7599.

FOR FURTHER INFORMATION CONTACT: Sue A. Wolf, BLM Alaska State Office, 907-271-5477.

Dated: February 17, 1995.

Sue A. Wolf,

Chief, Branch of Land Resources.

BILLING CODE 4310-JA-P

Fish and Wildlife Service

Finding of No Significant Impact for an incidental Take Permit for the Proposed Westminster Glen Subdivision, Austin, Travis County, TX

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service has prepared an Environmental Assessment for issuance of a Section 10(a)(1)(B) permit for the incidental take of the Federally endangered golden-cheeked warbler (*Dendroica chrysoparia*) during the construction and operation of a residential development in northwest Travis County, Texas.

Proposed Action

The proposed action is the issuance of a permit under Section 10(a)(1)(B) of the Endangered Species Act to authorize the incidental take of the golden-cheeked warbler.

The Applicant plans to construct single-family residences on 270 acres in northwest Travis County, Texas. The proposed development will comply with all local, regional, State, and Federal environmental regulations addressing environmental impacts associated with this type of development. Details of the mitigation are provided in the MaBe, Inc., (Applicant) Westminster Glen Subdivision Environmental Assessment/Habitat Conservation Plan. Guarantees for implementation are provided in the Implementing Agreement. These conservation plan actions ensure that the criteria established for issuance of an incidental take permit will be fully satisfied.

Alternatives Considered

1. Proposed action,
2. Wait for issuance of a Regional 10(a) permit,
3. No action.

Determination

Based upon information contained in the Environmental Assessment/Habitat Conservation Plan, the Service has determined that this action is not a major Federal action which would significantly affect the quality of the human environment within the meaning of Section 102(2)(c) of the National Environmental Policy Act of 1969. Accordingly, the preparation of an Environmental Impact Statement on the proposed action is not warranted.

It is my decision to issue the Section 10(a)(1)(B) permit for the construction and operation of the Westminster Glen residential development in Travis County, Texas.

James A. Young,

Acting Regional Director, Region 2, Albuquerque, New Mexico.
