[OMB Control No. 9000-0012]

Clearance Request for Termination Settlement Proposal Forms—FAR (Standard Forms 1435 Through 1440)

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice of request for an extension to an existing OMB clearance (9000-0012).

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1980 (44 U.S.C. 3501), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension of a currently approved information collection requirement concerning Termination Settlement Proposal Forms—FAR (Standard Forms 1435 through 1440).

FOR FURTHER INFORMATION CONTACT: Beverly Fayson, Office of Federal Acquisition Policy, GSA (202) 501-4755.

SUPPLEMENTARY INFORMATION:

A. Purpose

The termination settlement proposal forms (Standard Forms 1435 through 1440) provide a standardized format for listing essential cost and inventory information needed to support the terminated contractor's negotiation

position. Submission of the information assures that a contractor will be fairly reimbursed upon settlement of the terminated contract.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average 25 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to General Services Administration, FAR Secretariat, 18th & F Streets, NW., Room 4037, Washington, DC 20405, and to the FAR Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

The annual reporting burden is estimated as follows: Respondents, 600; responses per respondent, 1; total annual responses, 600; preparation hours per response, 25; and total response burden hours, 15,000.

Obtaining Copies of Proposals

Requester may obtain copies of OMB applications or justifications from the General Services Administration, FAR Secretariat (VRS), Room 4037, Washington, DC 20405, telephone (202) 501-4755. Please cite OMB Control No. 9000-0012, Termination Settlement Proposal Forms—FAR (Standard Forms 1435 through 1440), in all correspondence.

Dated: March 2, 1995.

Beverly Fayson,

FAR Secretariat.

BILLING CODE 6820-34-M

Department of the Navy

Combined Notice of Intent To Prepare and Notice of Preparation for an Environmental Impact Statement for the Disposal and Reuse of the Naval Facilities Engineering Service Center, Formerly the Naval Civil Engineering Laboratory (NCEL) Property and Structures, Port Hueneme, CA

Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), the Department of the Navy in coordination with the City of Port Hueneme is preparing an Environmental

Impact Statement (EIS) for the proposed disposal and reuse of the former Naval Civil Engineering Laboratory (NCEL) property and structures at Port Hueneme, California. The Defense Base Closure and Realignment Act (Public Law 101-510) of 1990, as implemented by the 1993 base closure process, directs the Navy to close the former NCEL. The City of Port Hueneme intends to use the EIS in place of an Environmental Impact Report (EIR) pursuant to the California Environmental Quality Act (CEQA) Guidelines Section 15221.

The former NCEL is within the jurisdiction of the City of Port Hueneme, on the California coast midway between the cities of Los Angeles and Santa Barbara, and covers approximately 33 acres. The Navy facility is scheduled for operational closure in April 1996. The property is currently developed with office buildings, laboratory facilities, and an active Coast Guard lighthouse. The EIS will address disposal of the property and the potential impacts associated with reuse alternatives.

The EIS will address the potential impacts to the environment that may result from implementation of three reuse alternatives and a "no action" alternative. An NCEL Community Reuse Plan, developed by the City of Port Hueneme, shall constitute the preferred alternative. The Reuse Plan identifies a mix of three land use types: approximately 22 acres designated for coastal oriented use (such as aquaculture, marine education and training, research and development), 8 acres designated for port-related use (such as container and break-bulk cargo storage, warehousing and distribution of goods) and 3 acres for retention and enhancement of the public access to the Pacific coast shoreline. The second alternative identifies two land use types: approximately 30 acres designated for port-related industrial use and 3 acres public access to the Pacific coast shoreline. The third alternative identifies four land use types: approximately 11 acres designated for aquaculture and commercial visitor-serving (i.e., restaurant), 11 acres designated for educational and recreational, 8 acres designated for port-related uses, 3 acres for public access to the Pacific coast shoreline. The "no action" alternative would consist of federal government retention of the property in an "inactive" status.

Federal, state and local agencies, and interested individuals are encouraged to participate in the scoping process for the EIS to determine the range of issues and reuse alternatives to be addressed. A public scoping meeting to receive oral and written comments will be held on
