National Institute of Standards and Technology

Announcement of an Opportunity To Join a Cooperative Research and Development Consortium for Alternative Approaches to Nanometer-Level Overlay and CD Metrology for IC Manufacturing

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of public meeting and notice of Government owned invention available for licensing.

SUMMARY: The National Institute of Standards and Technology (NIST) invites interested parties to attend a meeting on April 26, 1995 to discuss the possibility of setting up a cooperative research consortium to develop innovative approaches to overlay and CD metrology consistent with SIA-projected requirements. Parties interested in participating in the consortium should be prepared to invest adequate resources in the collaboration and be firmly committed to the goal of developing innovative approaches.

The program will be within the scope and confines of The Federal Technology Transfer Act of 1986 (Public Law 99-502, 15 U.S.C. 3710a), which provides Federal laboratories including NIST, with the authority to enter into cooperative research agreements with qualified parties. Under this law, NIST may contribute personnel, equipment and facilities—but no funds—to the cooperative research program.

Members will be expected to make a contribution to the consortium's efforts in the form of materials, equipment, personnel, and/or funds. The program is expected to last 18 months. This is not a grant program.

DATES: Interested parties should contact NIST to confirm their interest at the address, telephone number or FAX number shown below no later than April 7, 1995.

ADDRESSES: Technology Building, Room B360, National Institute of Standards and Technology, Gaithersburg, MD 20899.

FOR FURTHER INFORMATION CONTACT:
Michael W. Cresswell, Telephone: 301-975-2072; FAX: 301-948-4081.

SUPPLEMENTARY INFORMATION: The National Institute of Standards and Technology (NIST) invites interested parties to participate in a cooperative research consortium to conduct modeling of overlay detection by electrostatic/magnetic sensors interacting with optical metrology target architectures commonly used in

advanced IC manufacturing, examine enhancements deriving from target-geometry modifications and sensor-head innovations, design and evaluate a test implementation using Maxwell-equation-based simulation software and formulate specifications of a candidate design for selected applications.

In conjunction with the opportunity to join this Cooperative Research and Development Consortium, the following invention is available for licensing:

NIST Docket No. 94-040CIP

Title: Method and Reference Standards for Measuring Overlay in Multilayer Structures, and for Calibrating Imaging Equipment as Used in Semiconductor Manufacture.

Description: Imaging instruments for overlay-measurement extraction from partially-processed semiconductor wafers, are calibrated by providing a reference test structure having features which can be located by electrical measurements not subject to tool-induced shift and water-induced shift experienced by the imaging instrument. The reference test structure is first qualified using electrical measurements, and is then used to provided the effect of the said shifts on the imaging-instrument measurements.

Dated: March 1, 1995.

Samuel Kramer,

Associate Director.

National Information Infrastructure (NII) Copyright Awareness Campaign

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Notice of meeting.

SUMMARY: The Working Group on Intellectual Property Rights of the White House Information Infrastructure Task Force (ITTF) issued a preliminary draft of its report, "Intellectual Property and the National Information Infrastructure," on July 7, 1994. One of the Working Group's findings announced in the preliminary draft is that effective education of the public about intellectual property rights is crucial to the successful development of the NII. The Working Group recognizes that the public's awareness of their own intellectual property rights, as well as those of others, will lead to increased respect for those rights.

In order to effectuate public awareness of copyright, the preliminary draft, on page 140, stated that the

Working Group would sponsor a conference to develop curricula that may be used in schools and libraries to educate the public about intellectual property rights in the NII environment. The draft further stated that anyone who wished to participate in the conference should request to do so by sending a request to Terri A. Southwick by July 25, 1994. The participants have been chosen and notified. Every effort was made to ensure that a wide diversity of interests will be represented at the conference. All meetings will be open to the public. Information on subsequent meetings may be obtained by calling Alan Wright at (703) 305-9300.

DATES: The first meeting of the Copyright Awareness Campaign, will be held in Washington, DC, on Tuesday, March 21, 1995. It will begin at 2 p.m. and last until 5 p.m.

ADDRESSES: The first meeting will be held at the U.S. Department of Education, 600 Independence Avenue, SW., Washington, DC, in the Barnard Auditorium.

FOR FURTHER INFORMATION CONTACT: Alan Wright, Office of Legislative and International Affairs, U.S. Patent and Trademark Office, Box 4, Washington, DC 20231. Telephone: (703) 305-9300; Fax: (703) 305-8885.

SUPPLEMENTARY INFORMATION: The Working Group on Intellectual Property Rights, chaired by Assistant Secretary of Commerce and Commissioner of Patents and Trademarks Bruce A. Lehman, was established as part of the White House Information Infrastructure Task Force. The Task Force, chaired by Secretary of Commerce Ronald H. Brown, was created to work with Congress and the private sector to develop comprehensive telecommunications and information policies aimed at articulating and implementing the Administration's vision for the National Information Infrastructure (NII).

The Working Group's concern for improved public education regarding intellectual property rights in the NII environment was expressed in the preliminary draft of its report. The Copyright Awareness Campaign will bring together public and private educators, representing all levels of elementary, secondary, and post-secondary education, as well as copyright owners and users to formulate public awareness strategies and develop model curricula regarding the use of protected intellectual property on the NII. In addition to developing substantive curricula, the campaign will also explore how best to disseminate such curricula. The ultimate goal of the campaign is to identify the intellectual

property issues that the public must be aware of in the NII environment, and to determine the methods by which such information may be disseminated to the public. The campaign is not intended to be a forum for further elaboration on the issue of educational fair use, which is currently under discussion in the Conference on Fair Use that began last September. The campaign is concerned with educating the public on the importance of respecting intellectual property rights generally, with a particular focus on the NII environment.

Dated: March 3, 1995.

Bruce A. Lehman,

*Assistant Secretary of Commerce and
Commissioner of Patents and Trademarks.*
