

Columbia Gas states that the instant filing represents Columbia Gulf's annual filing pursuant to Section 33, Transportation Retainage Adjustment (TRA), of the General Terms and Conditions of its FERC Gas Tariff, Second Revised Volume No. 1.

Columbia Gulf states that it currently has retainage factors for each of its three zones. Each factor consists of a current and an unrecovered component for company-use, lost, and unaccounted for quantities. In this filing, Columbia Gulf is adjusting the current component of each retainage factor to reflect a change in the estimate for company-use, lost and unaccounted for quantities. The uncovered component for each of the retainage factors is also being adjusted in this filing to account for an over recovery of these quantities during the deferral period.

Furthermore, Columbia Gulf is requesting a waiver to permit using a 14-month deferral period in calculating the unrecovered component.

Columbia Gulf states that copies of its filing have been mailed to all firm customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 10, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of Columbia Gulf's filings are on file with the Commission and are available for public inspection.
