

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION**Records Schedules; Availability and Request for Comments**

AGENCY: National Archives and Records Administration, Office of Records Administration.

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Records schedules identify records of sufficient value to warrant preservation in the National Archives of the United States. Schedules also authorize agencies after a specified period to dispose of records lacking administrative, legal, research, or other value. Notice is published for records schedules that (1) propose the destruction of records not previously authorized for disposal, or (2) reduce the retention period for records already authorized for disposal. NARA invites public comments on such schedules, as required by 44 U.S.C. 3303a(a).

DATES: Request for copies must be received in writing on or before April 24, 1995. Once the appraisal of the records is completed, NARA will send a copy of the schedule. The requester will be given 30 days to submit comments.

ADDRESSES: Address requests for single copies of schedules identified in this notice to the Records Appraisal and Disposition Division (NIR), National Archives and Records Administration, College Park, MD 20740. Requesters must cite the control number assigned to each schedule when requesting a copy. The control number appears in the parentheses immediately after the name of the requesting agency.

SUPPLEMENTARY INFORMATION: Each year U.S. Government agencies create billions of records on paper, film, magnetic tape, and other media. In order to control this accumulation, agency records managers prepare records schedules specifying when the agency no longer needs the records and what happens to the records after this period. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. These comprehensive schedules provide for the eventual transfer to the National Archives of historically valuable records and authorize the disposal of all other records. Most schedules, however, cover records of only one office or program or

a few series of records, and many are updates of previously approved schedules. Such schedules also may include records that are designated for permanent retention.

Destruction of records requires the approval of the Archivist of the United States. This approval is granted after a thorough study of the records that takes into account their administrative use by the agency, or origin, the rights of the Government and of private persons directly affected by the Government's activities, and historical or other value.

This public notice identifies the Federal agencies and their subdivisions requesting disposition authority, includes the control number assigned to each schedule, and briefly describes the records proposed for disposal. The records schedule contains additional information about the records and their disposition. Further information about the disposition process will be furnished to each requester.

NUCLEAR REGULATORY COMMISSION**Integrated Performance Assessment Process (IPAP); Public Information Meeting**

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of meeting.

SUMMARY: The Nuclear Regulatory Commission (NRC) is announcing its plans to conduct a public meeting to discuss its proposed Integrated Performance Assessment Process (IPAP) for commercial, operating, nuclear power plant licensees. The IPAP was developed to improve the NRC's integration of objective information related to the performance of reactor licensees. In addition, the IPAP will provide a check on the effectiveness of NRC's integration and planning processes and will provide feedback on the effectiveness of regulatory programs.

This notice also announces the availability of background material in the NRC Public Document Room (PDR). The following background documents are available for inspection and copying for a fee at the NRC Public Document Room, 2120 L Street, NW (Lower Level), Washington DC:

- IP 93XXX, "Integrated Performance Assessment Process." This document describes the IPAP.
- SECY-94-210, "Customized Inspection Planning Process—Trial Activity." This document describes the IPAP and provides the results of the first trial assessment.
- NRC Inspection Report 50-498/94-25; 50-499/94-25. This document provides the results of an IPAP trial assessment.
- NRC Inspection Report 50-369/94-14; 50-370/94-14. This document provides the results of an IPAP trial assessment.
- NRC Inspection Report 50-272/94-201; 50-311/94-201. This document provides the results of an IPAP trial assessment.

• NRC Inspection Report 50-334/94-81; 50-412/94-81. This document provides the results of an IPAP trial assessment and will be placed in the NRC PDR when issued.

The objectives of the public meeting are to provide a brief description of the Integrated Performance Assessment Process, answer questions on the process, and receive feedback from interested members of the public.

DATES: The meeting will be held on April 11, 1995, from 8:30 a.m. to 12:30 p.m. Persons planning to attend the public information meeting should submit a completed registration form (see below) by April 3, 1995. Interested persons unable to attend the meeting may submit written comments. Submit comments by April 18, 1995. Comments received after this date will be considered if practical to do so, but the Commission is able to assure consideration only for comments received on or before this date.

ADDRESSES: The meeting will be held at the United States Nuclear Regulatory Commission, Two White Flint North, Auditorium, 11545 Rockville Pike, Rockville, MD.

Send completed registration forms to Mr. David L. Gamberoni, M/S OWFN 12-E-4, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Send comments to Chief, Rules Review and Directives Branch, Division of Freedom of Information and Publication Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001. hand deliver comments to 11545 Rockville Pike, Rockville, Maryland, between 7:15 a.m. and 4:30 p.m. on Federal workdays. Copies of the comments received may be examined or copied for a fee at the NRC Public Document Room, located at 2120 L Street, NW (Lower Level), Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. David L. Gamberoni, M/S OWFN 12-E-4, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC, 20555. Telephone (301) 415-1144.

SUPPLEMENTARY INFORMATION: The Integrated Performance Assessment Process (IPAP) is a four phase process for systematically evaluating nuclear power plant licensee's safety performance. The IPAP also develops inspection recommendations that customize the inspection program for the next inspection period based on licensee strengths and weaknesses, and provides feedback to improve the

effectiveness and implementation of regulatory programs.

The four IPAP phases include:

- Integrated Review of Licensee Performance
- Site Assessment Visit
- Final Analysis and Inspection Recommendation Development
- Assessment of Regulatory Programs

The NRC staff intends to make a brief presentation on the contents of the IPAP at the meeting. However, the main focus of the meeting will be to address any questions regarding the process and solicit comments. The NRC staff will consider the comments received during this public meeting as well as written comments in finalizing its recommendations to the Commission on the Integrated Performance Assessment Process.

Dated at Rockville, Maryland, this 2nd day of March 1995.

For the Nuclear Regulatory Commission.

Michael R. Johnson,

Chief, Performance Evaluation and Assessment Section, Inspection Program Branch, Directorate for Inspection and Support Programs, Office of Nuclear Reactor Regulation.

[Docket No. 50-245]

Northwest Utilities, Millstone Nuclear Power Station, Unit 1, License No. DPR-21; Receipt of Petition for Director's Decision Under 10 CFR 2.206

Notice is hereby given that by Petition dated January 15, 1995, Anthony J. Ross (Petitioner) has requested that the Nuclear Regulatory Commission take action with regard to Northeast Utilities. The Petition was submitted as a supplement to a letter submitted by the Petitioner on October 28, 1994, in which he requested that "accelerated" enforcement action be taken against Northeast Utilities for violations at Millstone involving procedure compliance, work control, and tagging control. As a basis for his request, the Petitioner alleges that since August 1993 violations in these areas have increased significantly when compared to previous like periods, that many of these violations have never been assigned a severity level, and that when the repetitive nature and duration of these violations are considered, and these violations are considered collectively together with violations that have been assigned a severity level, escalated enforcement action is warranted. By letter dated February 8, 1995, the Petitioner provided additional information in support of his Petition.

The request, as supplemented, is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation.

A copy of the Petition and the February 8, 1995, supplement are available for inspection at the Commission's Public Document Room at 2120 L Street, NW., Washington, DC, and at the local public document room for Millstone Unit 1 located at the Learning Resource Center, Three Rivers Community-Technical College, Thames Valley Campus, 574 New London Turnpike, Norwich, CT 06360.

Dated at Rockville, Maryland, this 23rd day of February 1995.

For the Nuclear Regulatory Commission.

William T. Russell,

Director, Office of the Nuclear Reactor Regulation.
