Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared February 6, 1995 Through February 10, 1995 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 260-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 10, 1994 (59 FR 16807).

Draft EISs

ERP No. D-AFS-K65166-CA Rating EO2, Cottonwood Fire Restoration Project, Implementation, Tahoe National Forest, Sierraville Ranger District, Sierra County, CA.

Summary: EPA expressed environmental objections over the potential adverse impacts to soil productivity, hydrology, and water quality from the proposed extensive use of ground-based logging systems, the associated road creation, and proposed harvesting within the stream management zones (SMZs). EPA suggested modifications to the preferred alternative which would reduce the use of ground-based logging systems in the

most damaged or vulnerable watersheds, minimize entrance into the sensitive SMZ areas, and implement riparian rehabilitation activities and road obliterations as soon as possible.

ERP No. D-COE-E32193-GA Rating EC2, Savannah Harbor Navigation Project, Operation and Maintenance, Long Term Management Strategy Study, Chatham County, GA and Jasper County, SC.

Summary: EPA expressed environmental concerns over the long-term environmental consequences of implementation of the management plan. EPA requested additional information to more precisely define the uncertainties associated with the proposed operational changes.

ERP No. D-FRC-K02023-00 Rating EC2, Tuscarora Natural Gas Pipeline Project, Construction and Operation, Right-of-Way Grant, Special-Use-Permit, NPDES Permit and COE Section 404 Permit, Lassen County, CA; Washoe and Storey Counties, NV and Klamath County, OR.

Summary: EPA expressed environmental concerns over the proposed project, and requested additional information on impacts to air quality, wetlands, and cultural resources.

ERP No. D-IBR-K39037-CA Rating EC2, Cachuma Water Supply Project, Implementation, Long-term Contract Renewal, Santa Ynez Valley, Bradbury Dam, Santa Barbara, CA.

Summary: EPA commented that the draft EIS present a good examination of a wide range of alternative, but also expressed concern that more information was needed regarding water conservation, groundwater injections and socio-economic impacts.

ERP No. D-NPS-K60100-AZ Rating EC2, Programmatic EIS—Juan Bautista de Anza National Historic Trail Comprehensive Management Plan, Implementation, several counties, AZ and CA.

Summary: EPA expressed environmental concerns and requested that the final EIS include a “no action” alternative analysis, a conformity determination, analysis of potential trail carrying capacity, and address issues related to environmental justice, threatened and endangered species and wetlands.

ERP No. D-NRC-K01008-00 Rating EO2, Crownpoint Uranium Solution Mining Project, Construction and Operation, Leasing and Licensing, McKinley County, NM.

Summary: EPA expressed environmental objections to the proposed project based on its proximity to domestic supply wells and residences

and insufficient hydrogeologic modelling and field testing to ensure a completely closed system. Additional information is needed in the Final Environmental Impact Statement (FEIS) regarding the results of hydrogeologic modelling and field tests, including the potential for, and environmental impacts of, contaminated groundwater migrating off-site as a results of injection activities; aquifer restoration; and effects of drawdown of supply wells for the City of Crownpoint. The final EIS should also include additional information on permitting, spill response, management of sludge and process wastes, and Radionuclide National Emissions Standards for Hazardous Air Pollutants.

ERP No. DS-FAA-C51013-NJ Rating EC2, Expanded East Coast Plan, Changes in Aircraft Flight Patterns over the State of New Jersey, Updated Information, Implementation, NJ.

Summary: EPA continued to have environmental concerns about the noise impacts of the proposed project.

Additional information is needed to address the “conflict points” that were the basis for rejecting the Ocean Routing Proposal, to characterize noise levels in specific towns, and to justify the use of an unverified noise model.

Dated: March 7, 1995.
