SUPPLEMENTAL INFORMATION:
I. Background on Title IV of SMCRA

Title IV of SMCRA established an AMLR program for the purposes of reclaiming and restoring lands and waters adversely affected by past mining. The program is funded by a reclamation fee levied on the production of coal. Lands and waters eligible for reclamation under title IV are those that were mined or affected by mining and abandoned or inadequately reclaimed prior to August 3, 1977, and for which there is no continuing reclamation responsibility under State, Federal, Tribal, or other laws.

Title IV provides for State or Tribal submittal to OSM of an AMLR plan. The Secretary of the Interior adopted regulations at 30 CFR 870 through 888 that implement Title IV of SMCRA. Under these regulations, the Secretary reviewed the plans submitted by States and Tribes and solicited and considered comments of State and Federal agencies and the public. Based upon the comments received, the Secretary determined whether a State or Tribe had the ability and necessary legislation to implement the provisions of Title IV. After making such a determination, the Secretary decided whether to approve the State or Tribe program. Approval granted the State or Tribe exclusive authority to administer its plan.

Ordinarily, under section 406 of SMCRA, a State or Tribe must have an approved surface mining regulatory program prior to submittal of an AMLR plan to OSM. However, on July 11, 1987, the President signed a supplemental appropriations bill (Pub. L. 100–71) that authorized the Crow and Hopi Tribes and Navajo Nation to adopt AMLR programs without approval of Tribal surface mining regulatory programs.

Upon approval of a State’s or Tribe’s plan by the Secretary, the State or Tribe may submit to OSM, on an annual basis, an application for funds to be expended by that State or Tribe on specific projects that are necessary to implement the approved plan. Such annual requests are reviewed and approved by OSM in accordance with the requirements of 30 CFR Part 886.

II. Background on the Navajo Plan

On May 16, 1988, the Secretary of the Interior approved the Navajo plan. General background information on the Navajo plan, including the Secretary’s findings, the disposition of comments, and the approval of the Navajo plan can be found in the May 16, 1988, Federal Register (53 FR 17186). Approval of the Navajo plan is codified at 30 CFR 756.13. Subsequent actions concerning the Navajo plan and plan amendments can be found at 30 CFR 756.14.

III. Proposed Amendment

By letter dated January 12, 1995, the Navajo Nation submitted a proposed amendment to its AMLR plan pursuant to SMCRA (administrative record No.
NA-227). The Navajo Nation submitted the proposed amendment at its own initiative and in response to the final rule Federal Register notice acknowledging that the Navajo Nation would amend its AMLR Code of 1987 to provide for the reclamation of interim program coalic sites (59 FR 49178, 48181, finding No. 1(f), September 27, 1994; administrative record No. NA-225). The Navajo Nation proposed the addition of new language at section 404(b) of its AMLR Code to provide for such reclamation.

OSM announced receipt of the proposed amendment in the February 10, 1995, Federal Register (60 FR 7926), provided an opportunity for a public hearing or meeting on its substantive adequacy, and invited public comment on its adequacy (administrative record No. NA-232). Because no one has requested a public hearing or meeting, none has been held. The public comment period ends on March 10, 1995.

OSM would like to take this opportunity to correct an error in the February 10, 1995, Federal Register document. In the first column on page 7927, part of the original language of the proposed amendment submitted by the Navajo Nation is incorrectly cited. Subsection 404(b)(4) should read as follows:

The site qualifies as a priority one or two site pursuant to section 403(a) (1) and (2) of SMCRA. Priority will be given to those sites which are in the immediate vicinity of a residential area or which have an adverse economic impact upon a community.

During its review of the proposed amendment, OSM identified concerns relating to the provisions of the Navajo AMLR Code of 1987 at section 404(b)(2) pertaining to (1) the dates used to define interim program coalic sites, and (2) the requirement that a determination be made that any funds available for reclamation or abatement pursuant to a bond or other form of financial guarantee or from any other source are not sufficient to provide for adequate reclamation or abatement at the site. OSM notified the Navajo Nation of the concerns in a telephone conversation on February 23, 1995 (administrative record No. NA-233). The Navajo Nation responded in a letter dated February 23, 1995, by submitting a revised amendment (administrative record No. NA-234).

The Navajo Nation proposes revisions to section 404(b)(2) of the Code as it pertains to the dates used to define interim program coalic sites, and the addition of the requirement that there be insufficient funds for completion of reclamation or abatement activities.

IV. Public Comment Procedures

OSM is extending by an additional 15 days the comment period on the proposed Navajo plan amendment to provide the public an opportunity to reconsider the adequacy of the proposed amendment in light of the additional materials submitted. In accordance with the provisions of 30 CFR 884.14 and 884.15(a), OSM is seeking comments on whether the proposed amendment satisfies the applicable plan approval criteria of 30 CFR 884.14. If the amendment is deemed adequate, it will become part of the Navajo plan.

Written comments should be specific, pertain only to the issues proposed in this rulemaking, and include explanations in support of the commenter's recommendations. Comments received after the time indicated under DATES or at locations other than the Albuquerque Field Office will not necessarily be considered in the final rulemaking or included in the administrative record.

V. Procedural Determinations

1. Executive Order 12866

This rule is exempted from review by the Office of Management and Budget (OMB) under Executive Order 12866 (Regulatory Planning and Review).

2. Executive Order 12778

The Department of the Interior has conducted the reviews required by section 2 of Executive Order 12778 (Civil Justice Reform) and has determined that this rule meets the applicable standards of subsections (a) and (b) of that section. However, these standards are not applicable to the actual language of State or Tribal AMLR plans and revisions thereof since each such plan is drafted and promulgated by a specific State or Tribe, not by OSM. Decisions on proposed State or Tribe AMLR plans and revisions thereof submitted by a State or Tribe are based on a determination of whether the submittal meets the requirements of Title IV of SMCRA (30 U.S.C. 1231-1243) and the applicable Federal regulations at 30 CFR Parts 884 and 888.

3. National Environmental Policy Act

No environmental impact statement is required for this rule since agency decisions on proposed State or Tribe AMLR plans and revisions thereof are categorically excluded from compliance with the National Environmental Policy Act (42 U.S.C. 4332) by the Manual of the Department of the Interior (516 DM 6, appendix 8, paragraph 8.4B(29)).

4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The Tribal submittal which is the subject of this rule is based upon Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements established by SMCRA or previously promulgated by OSM will be implemented by the Tribe. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions in the analyses for the corresponding Federal regulations.
