

enhancement activities located in Idaho County, Idaho, near Elk City (T28, R9E, Secs. 18 and 19).

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR Part 1022), BPA will prepare a floodplain and wetlands assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands.

The assessment will be included in the environmental assessment (EA) being prepared for the proposed project in accordance with the requirements of the National Environmental Policy Act. A floodplain statement of findings will be included in any finding of no significant impact that may be issued following the completion of the EA.

DATES: Comments are due to the address below no later than April 17, 1995.

FOR FURTHER INFORMATION CONTACT:

Robert Beraud, ECN, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208-621, phone number 503-230-3599, fax number 503-230-5699, or Robert Shank, ECN, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon 97208-3621, phone number 503-230-5115.

SUPPLEMENTARY INFORMATION: BPA proposes to stabilize the stream channel, restore fishery habitat features, and re-establish a riparian shrub community. The project area is roughly 7.1 km (4.4 miles) of state and privately owned land located adjacent to the Red River. The majority of the land is currently used for cattle grazing. The proposed activities are necessary to partially mitigate for juvenile chinook salmon spawning and rearing habitat adversely affected by construction and operation of the lower Snake and Columbia River dams and reservoirs.

Maps and further information are available from BPA at the address above.

Issued in Portland, Oregon, on March 2, 1995.

John M. Taves,

NEPA Compliance Officer, Office of Environment/Fish and Wildlife.

Notice of Wetlands Involvement for the Skyline Farm Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Wetlands Involvement.

SUMMARY: Today's notice announces BPA's proposal to transfer Skyline Farm's water rights from agricultural use to in-stream use for fish. Skyline Farm encompasses about 3640 hectares (9,000 acres) with approximately 50,000 acre-feet of water rights and is located in Malheur County, Oregon. In July 1994, BPA entered into a 1- to 3-year purchase option and water use agreement with the main owner of Skyline Farm. This agreement allows BPA to file application with the state to temporarily transfer use of 16,000 acre-feet of water per year from agricultural use to in-stream use for fish and hydropower generation and evaluate the effects. The purpose of this agreement is to carry out part of the Northwest Power Planning Council's program to increase stream flows in the upper Snake River Basin for salmon and steelhead. This proposal could impact wetlands that occur on the Skyline Farm property. In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 C.F.R. Part 1022), BPA will prepare a wetlands assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected wetlands. The assessment will be included in the environmental assessment being prepared for the proposed project in accordance with the National Environmental Policy Act.

DATES: Comments are due to the address below no later than April 17, 1995.

ADDRESSES: Submit comments to the Public Involvement and Information Manager, Bonneville Power Administration—CKP, P.O. Box 12999, Portland, Oregon 97212.

FOR FURTHER INFORMATION, CONTACT:

Nancy A. Wittpenn, Bonneville Power Administration—ECN-500, P.O. Box 3621, Portland, Oregon 97208-3621, phone number 503-230-3297, fax number 503-230-5699.

SUPPLEMENTARY INFORMATION: On the Skyline Farm property, palustrine emergent wetlands occur in drainages located in sections 2, 3, and 4 within Township 18 South, Range 46 East, and in sections 1, 2, 10-17, 20-23, 26-28, and 32-35 within Township 17 South, Range 46 East. Palustrine scrub-shrub wetlands associated with water impoundments within Jacobsen Gulch occur in sections 10, 14, and 16 within Township 17 South, Range 46 East.

Maps and further information are available from BPA at the address above.

Issued in Portland, Oregon, on March 2, 1995.

John M. Taves,

NEPA Compliance Officer for Fish and Wildlife.

BILLING CODE 6450-01-P

Office of Arms Control and Nonproliferation; Proposed Subsequent Arrangement

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160), notice is hereby given of a proposed "subsequent arrangement" under the Additional Agreement for Cooperation between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended, the Agreement for Cooperation between the Government of the United States of America and the Government of Switzerland Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangement would give approval, which must be obtained under the above-mentioned agreements, for the following transfer of special nuclear materials of United States origin, or of special nuclear materials produced through the use of materials of United States origin, as follows: Switzerland to the United Kingdom for the purpose of reprocessing 140 irradiated fuel assemblies containing approximately 57,000 kilograms of uranium and containing 460 kilograms of the isotope uranium-235 (enriched to approximately 0.81 percent) and 590 kilograms of plutonium from the Gosgen nuclear power station. This subsequent arrangement is designated as RTD/EU(SD)-80.

The United States has received assurance from the Government of Switzerland that the recovered uranium and plutonium will be stored in the United Kingdom, and will not be transferred from the United Kingdom, nor put to any use, without the prior consent of the United States Government.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that this subsequent arrangement will not be inimical to the common defense and security.

This subsequent arrangement will take effect no sooner than fifteen days after the date of publication of this notice and after fifteen days of continuous session of the Congress, beginning the day after the date on which the reports required by section
