

claim for duties on softwood lumber from Canada. This compromise resolved all remaining claims of the United States arising from the countervailing duty order on softwood lumber from Canada.

Since there is no further basis for conducting administrative reviews of the countervailing duty order on softwood lumber from Canada, the Department is terminating the administrative review for the period March 12, 1992 through March 31, 1993, and will not initiate the administrative review for the period April 1, 1993 through March 16, 1994.

Dated: March 7, 1995.

Paul L. Joffe,

Deputy Assistant Secretary for Import Administration.

Agreement Suspending the Antidumping Investigation on Uranium From Kazakhstan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Amendment to the Agreement Between the United States Department of Commerce and the Republic of Kazakhstan Suspending the Antidumping Investigation on Uranium from Kazakhstan.

SUMMARY: The Department of Commerce (the Department) and the Republic of Kazakhstan (Kazakhstan) have signed an Amendment (the Amendment) to the Agreement Suspending the Antidumping Investigation on Uranium from Kazakhstan (the Agreement).

EFFECTIVE DATE: February 7, 1995.

FOR FURTHER INFORMATION CONTACT: James Doyle or Maureen Price, Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0172 or (202) 482-0159, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 16, 1992, the Department and Kazakhstan signed the Agreement and, on October 30, 1992, the Agreement was published in the **Federal Register** (57 FR 49220, 49222). On November 9, 1994, the Department and Kazakhstan initialled an Amendment to include highly enriched

uranium (HEU) within the product coverage of the Agreement. The Department subsequently released the Amendment to interested parties for comment. After careful consideration by the Department of the comments submitted and further consultations between the parties, the Department and Kazakhstan signed a final Amendment on February 7, 1995. The text of the final Amendment follows this notice.

Date: March 6, 1995.

Paul L. Joffe,

Deputy Assistant Secretary for Import Administration.

Amendment to the Agreement Between the United States Department of Commerce and the Republic of Kazakhstan Suspending the Antidumping Investigation on Uranium from Kazakhstan

The United States Department of Commerce and the Republic of Kazakhstan hereby amend their Agreement Suspending the Antidumping Investigation on Uranium from Kazakhstan, signed October 16, 1992, as follows:

Section III, "Product Coverage," is amended to include the following paragraph:

Highly enriched uranium ("HEU") is within the scope of this investigation, and HEU is covered by this Agreement. For the purpose of this Agreement, HEU means uranium enriched to 20 percent or greater in the isotope uranium-235, whether in the form of metal, uranium oxide, fuel rods, or powder.

Section IV is amended to include the following paragraph L:

L.1. Exports of HEU pursuant to the Purchase Agreement Between the Government of the United States of America and the Republic of Kazakhstan, completed November 17, 1994 ("Purchase Agreement") will not be counted against the export limits established in accordance with paragraph C of this section. The disposition of the HEU is in the public interest because: (1) the HEU or products from it will be processed or delivered by the United States Department of Energy, its governmental successors, its contractors, assigns, or U.S. private parties acting in a manner not inconsistent with the Purchase Agreement; (2) any utility-owned uranium products delivered pursuant to enrichment contracts affected by the purchase of HEU or HEU products will not be resold in the United States, either as natural uranium or as low enriched uranium ("LEU") produced in excess of the contractually-specified amount; (3) contracts for the purchase of HEU or

HEU products from Kazakhstan will be provided to the Department; (4) annual summaries of utilization of HEU and HEU products and associated utility feed will be provided to the Department; and (5) the Department determines that permitting importation of all or any portion of the HEU in question is consistent with the purposes of this Agreement.

2. Exports of HEU must be accompanied by an export certificate endorsed by the Republic of Kazakhstan specifying the amount of the export.

This Amendment constitutes an integral part of the Agreement Between the United States Department of Commerce and the Republic of Kazakhstan Suspending the Antidumping Investigation on Uranium from Kazakhstan.

Signed on this 7th day of February, 1995.

For the Republic of Kazakhstan:

Tuleutai S. Suleimenov,

Ambassador to the United States.

For the United States Department of Commerce:

Paul L. Joffe,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 33510-DS-P

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 95-008. *Applicant:* U.S. Department of Energy, 1000 Independence Ave., SW, Washington, DC 20585. *Instrument:* Fuel Cell. *Manufacturer:* Fuji Electric Company, Japan. *Intended Use:* The instrument will be used to convert hydrogen and oxygen into electrical power during studies of the use of a phosphoric acid fuel cell to propel an urban transit bus.
