

late-March 1995. The purpose of the public hearing is to allow interested parties an opportunity to offer oral testimony on the proposed standards and guidelines for MWI's. The purpose of this notice is to provide specific information regarding the date, time, and location of the public hearing. The hearing is open to the public. Seating will be on a first-come, first-served basis. Speakers are asked to limit their testimony to 15 minutes.

Dated: March 6, 1995.

Mary D. Nichols,

Assistant Administrator for Air and Radiation.

BILLING CODE 6560-50-P

40 CFR Part 61

[FRL-5169-8]

Approval of Delegation of Authority; National Emission Standards for Hazardous Air Pollutants; Radionuclides; Utah

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to grant delegation of authority to the State of Utah to implement and enforce five National Emission Standards for Hazardous Air Pollutants (NESHAP) for radionuclides. The Governor of Utah requested delegation from EPA Region VIII in a letter dated June 4, 1993. In the final rules section of this **Federal Register**, EPA is approving the State of Utah's request for delegation as a direct final rule without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. EPA's rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. **DATES:** Comments on this proposed rule must be received in writing by April 14, 1995.

ADDRESSES: Written comments should be submitted to Patricia D. Hull, Director, Air, Radiation & Toxics Division, Environmental Protection Agency, Region VIII, 999 18th Street,

Suite 500, Denver, Colorado 80202-2466 and concurrently to Russell A. Roberts, Director, Division of Air Quality, Department of Environmental Quality, 1950 West North Temple, Salt Lake City, Utah 84114-4820. Copies of State of Utah's submittal are available for public inspection during normal business hours at the above locations. **FOR FURTHER INFORMATION CONTACT:** T. Scott Whitmore at (303) 293-1758.

SUPPLEMENTARY INFORMATION: See the information provided in the final action which is located in the final rules section of this **Federal Register**.

Pesticide Tolerances for Triasulfuron

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to establish permanent tolerances for residues of the herbicide triasulfuron, [3-(6-methoxy-4-methyl-1,3,5-triazin-2-yl)-1-(2-(2-chloroethoxy)phenylsulfonyl)urea], in or on barley and wheat grain at 0.02 part per million (ppm); barley and wheat straw at 2.0 ppm; barley and wheat forage at 5.0 ppm; meat, fat, and meat byproducts (excluding kidney) of cattle, goats, hogs, horses, and sheep at 0.1 ppm; kidney of cattle, goats, horses, and sheep at 0.2 ppm; and milk at 0.02 ppm. Ciba-Geigy has fulfilled certain testing requirements, and EPA proposes to change to permanent tolerances the current time-limited tolerances.

DATES: Comments, identified by the document control number [PP 8F3658/P605], must be received on or before April 14, 1995.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921

Jefferson Davis Hwy., Arlington, VA 22202.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI).

Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Robert J. Taylor, Product Manager (PM) 25, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460. Office location and telephone number: Rm. 241, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA 22202, (703)-305-6800.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 13, 1992 (57 FR 8844), EPA issued a final rule which established tolerances for residues of the herbicide triasulfuron, [3-(6-methoxy-4-methyl-1,3,5-triazin-2-yl)-1-(2-(2-chloroethoxy)phenylsulfonyl)urea], in or on barley and wheat grain at 0.02 ppm; barley or wheat forage at 5.0 ppm; barley and wheat straw at 20 ppm; meat, fat, and meat byproducts (excluding kidney) of cattle, goats, hogs, horses, and sheep at 0.1 ppm; and milk at 0.02 ppm, with an expiration date of March 13, 1995. In the **Federal Register** of August 31, 1994 (59 FR 44931), the Agency issued a notice extending these tolerances until March 13, 1996. These tolerances with an expiration date were required by EPA to allow the petitioner, Ciba-Geigy Corp., to submit additional data required for environmental fate and groundwater, and to allow the Agency to complete the regulatory assessment of EPA's scientific findings. The petitioner has submitted all the required data. The Agency has completed the regulatory assessment of the data and determined that adequate work has been done to fulfill these requirements. EPA is preparing to amend 40 CFR 180.459 to establish permanent tolerances on the wheat, barley, and animal commodities.

Based on the information cited above and in the document establishing the time-limited tolerances for triasulfuron (57 FR 8844, March 13, 1992 and 59 FR
