

Docket No. QF86-556-001, the facility was recertified to reflect a change in the steam host [49 FERC ¶ 62,288 (1989)]. In Docket No. QF86-566-002, the facility was recertified to reflect changes in the facility's design and an increase in the net electric power production capacity to 51.1 MW [53 FERC ¶ 62,029 (1990)]. In Docket No. QF86-566-003, the applicant was granted recertification for a small power production facility with a maximum net electric power production capacity of 52 MW. The instant recertification is submitted to reflect a change in the ownership structure.

Any person desiring to be heard or objecting to the granting of qualifying status should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed within 30 days after the date of publication of this notice in the **Federal Register**, and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

[Docket No. RP95-201-000]

Williams Natural Gas Company; Filing

March 9, 1995.

Take notice that on March 1, 1995, Williams Natural Gas Company (WNG) filed Schedule A, Pages 2 and 3 from its December 1, 1994 filing, in Docket No. TM95-2-45-001, which shows no under or over recovery for October through December 1993 for its Storage and West Panhandle gathering area. Therefore, no tariff filing is being made at this time. WNG will make a filing to be effective June 1, 1995 to eliminate the under or over recovery component that has been in the percentages for all other areas for twelve months.

WNG states that it failed on December 1, 1994, in Docket No. TM95-2-43-001 to reflect revised fuel and loss reimbursement percentages effective January 1, 1995. In the filing, WNG did not include under recoveries for the

three-month period October through December, 1993 under the assumption that under recoveries for this period, which were included in WNG's prior filing in Docket Nos. RP95-172 and RP94-205, would be permitted to be included in that prior filing. In this regard, WNG also proposed that such under recovery component, which represents the October through December 1993 period, be permitted to remain in effect for a full twelve months. Such twelve-month period ends on March 31, 1995 for Storage and the West Panhandle gathering area, and on May 31, 1995 for all other areas. Accordingly, WNG proposed to file revised tariff sheets effective April 1, 1995 and June 1, 1995 to eliminate the under or over recovery component applicable to October through December 1993.

WNG states that copies of this filing are being served on all participants listed on the service lists maintained by the Commission in the dockets referenced above and on all the WNG's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before March 16, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

BILLING CODE 6717-01-M

[Docket No. FA90-68-003]

Williams Natural Gas Company; Filing

March 9, 1995.

Take notice that Williams Natural Gas Company (WNG) on November 23, 1995, tendered for filing a report of refunds made to jurisdictional customers.

WNG states that Commission order issued October 14, 1994 required WNG to refund the principal amount of \$1,088,254 at issue in this proceeding,

with interest from the time customers first paid these carrying charges to the date of the refund. On November 14, 1994, WNG refunded \$1,503,020, which included interest from July 1, 1990 through November 14, 1994, to the customers who paid such carrying charges.

WNG states that a copy of its filing was served on all jurisdictional customers receiving a refund, all participants listed on the service lists maintained by the Commission in the docket referenced above, and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before March 23, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
