AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve the 1990 base year ozone emission inventories submitted by

Louisiana for the purpose of bringing about the attainment of the national ambient air quality standard (NAAQS) for ozone. In the final rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn, and all public comments received will be addressed in a subsequent final rule based on this proposed rule. Ciba-Geigy has fulfilled certain testing requirements, and EPA proposes to change to permanent tolerances the current time-limited tolerances.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of March 13, 1992 (57 FR 8844), EPA issued a final rule which established tolerances for residues of the herbicide triasulfuron, [3-(6-methoxy-4-methyl-1,3,5-triazin-2-yl)-1-(2-(2-chloroethoxy)phenylsulfonyl)urea], in or on barley and wheat grain at 0.02 ppm; barley or wheat forage at 5.0 ppm; barley and wheat straw at 20 ppm; meat, fat, and meat byproducts (excluding kidney) of cattle, goats, hogs, horses, and sheep at 0.1 ppm; and milk at 0.02 ppm, with an expiration date of March 13, 1995. In the **Federal Register** of August 31, 1994 (59 FR 44931), the Agency issued a notice extending these tolerances until March 13, 1996. These tolerances with an expiration date were required by EPA to allow the petitioner, Ciba-Geigy Corp., to submit additional data required for environmental fate and groundwater, and to allow the Agency to complete the regulatory assessment of EPA's scientific findings. The petitioner has submitted all the required data. The Agency has completed the regulatory assessment of the data and determined that adequate work has been done to fulfill these requirements. EPA is preparing to amend 40 CFR 180.459 to establish permanent tolerances on the wheat, barley, and animal commodities.

Based on the information cited above and in the document establishing the time-limited tolerances for triasulfuron (57 FR 8844, March 13, 1992 and 59 FR
