D-I-1-4, Inc.; Approval of a Pesticide Product Registration

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of an application to register the pesticide product 1,4Sight, containing an active ingredient not included in any previously registered product pursuant to the provisions of section 3(c)(5) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Cynthia Giles-Parker, Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703-305-5540).

SUPPLEMENTARY INFORMATION: EPA received an application from D-I-1-4, Inc., 15401 Cartwright Road, Boise, ID 83703, to register the pesticide product 1,4Sight (File Symbol 67727-R), containing the active ingredient 1,4-dimethylnaphthalene at 94.7 percent, an active ingredient not included in any previously registered product. However, since the notice of receipt of application was not published in the **Federal Register**, as required by FIFRA, as amended, interested parties may submit written comments within 30 days from the date of publication of this notice.

The application was approved on February 2, 1995, as 1,4Sight for use as an aerosol to control the sprouting of potatoes during the storage phase (EPA Registration Number 67727-1).

The Agency has considered all required data on risks associated with the proposed use of 1,4-dimethylnaphthalene, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of 1,4-dimethylnaphthalene when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on this registration is contained in a Chemical Fact Sheet on 1,4-dimethylnaphthalene.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.

Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted specific exemptions for the control of various pests to the 10 States listed below. There were four crisis exemptions initiated by various States. Quarantine exemptions have been granted to the United States Department of Agriculture/Animal and Plant Health Inspection Service. These exemptions, issued during the months of October, November, and December 1994, are subject to application and timing restrictions and reporting requirements designed to protect the environment to the maximum extent possible. EPA has denied four specific and one Public Health exemption requests. Information on these restrictions is available from the contact persons in EPA listed below. **DATES:** See each specific, crisis, and quarantine exemption for its effective date.

FOR FURTHER INFORMATION CONTACT: See each emergency exemption for the name of the contact person. The following information applies to all contact persons: By mail: Registration Division (7505W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: 6th Floor, CS #1, 2800 Jefferson Davis Highway, Arlington, VA, (703) 308-8417; e-mail: group.ermus@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA has granted specific exemptions to the:

1. Arkansas State Plant Board for the use of cypermethrin on mustard greens to control various insects; October 20, 1994, to October 19, 1995. (Libby Pemberton)

2. California Environmental Protection Agency for the use of methyl bromide on watermelon to control nematodes, weeds, and soil diseases; November 18, 1994, to April 30, 1995. (Libby Pemberton)

3. California Environmental Protection Agency for the use of naled on swiss chard to control aphids; November 23, 1994, to November 22, 1995. (Margarita Collantes)
