BILLING CODE 4160-01-M

Substance Abuse and Mental Health Services Administration

Single Source Grant to CODAC Behavioral Health Services of Pima County, Inc.

AGENCY: Center for Substance Abuse Treatment, Substance Abuse and Mental Health Services Administration (SAMHSA), HHS.

ACTION: Notice of intent to award a single source demonstration grant to support a comprehensive outpatient treatment and prevention program for substance-abusing mothers and their infants in Pima County, Arizona.

SUMMARY: The Center for Substance Abuse Treatment (CSAT), SAMHSA, is publishing this notice to provide information to the public concerning a planned single source grant award to CODAC Behavioral Health Services of Pima County, Inc. This is not a formal request for applications. Assistance will be provided only to CODAC Behavioral Health Services of Pima County, Inc., based on the receipt of a satisfactory application that is approved by a peer review group and the CSAT National Advisory Council.

Authority/Justification

The grant will be made under the authority of Section 510(b)(1) of the Public Health Service Act, as amended.

An award is being made on a single source basis because the Conference Report to the Treasury/Postal Service and General Appropriations Act of 1995, Pub. L. 103-329, provides directive language that the appropriation includes \$500,000 for CSAT to support CODAC Behavioral Health Services of Pima County, Inc., for "a comprehensive treatment and prevention program for substance-abusing mothers and their infants." Providing assistance through a grant is the appropriate mechanism to fund this activity because it is our intent to provide support for a public purpose and agency involvement in the actual conduct of the activity is not required. The grant is subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Background

Scientific evidence indicates that certain individuals are at greater risk of disease, dysfunction and death as a consequence of alcohol and other drug use and abuse. Women, and in particular, pregnant and postpartum women, their infants and children who live at or near the poverty line, are among the most vulnerable of these. For them, substance use/abuse, chemical dependency, and the biological, psychiatric, psychological and socio-economic co-factors of substance abuse (herein referred to as "alcohol and other drug problems") may be severe. Unfortunately, the treatment infrastructure has not kept pace with the demand or complexity of need in response to the serious problem of
