4. Paperwork Reduction Act

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 *et seq.*).

5. Regulatory Flexibility Act

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

BILLING CODE 4310-05-M

POSTAL SERVICE

39 CFR Part 20

Implementation of WORLDPOST Priority Letter

AGENCY: Postal Service.

ACTION: Interim rule with request for comments.

SUMMARY: WORLDPOST Priority Letter (WPL) is a new international mail service designed for correspondence and documents. WPL items receive priority handling in the United States and in destination countries. Initially, the service will be available to 14 destination countries, from specified post offices in seven metropolitan areas. To use WPL, a customer must use either of the two flat-rate envelopes designed for this service and provided by the Postal Service. Interim implementing regulations have been developed and are set forth below for comment and suggested revision prior to adoption in final form.

DATES: The interim regulations take effect March 16, 1995. Comments must be received on or before April 17, 1995.

ADDRESSES: Written comments should be mailed or delivered to International Product Management, U.S. Postal Service, 475 L'Enfant Plaza SW., Room 5300, Washington, DC 20260-2410. Copies of all written comments will be available for public inspection and photocopying between 9 a.m. and 4 p.m., Monday through Friday, at the above address.

FOR FURTHER INFORMATION CONTACT: Janet Mitchell, (202) 268-6095.

SUPPLEMENTARY INFORMATION: Under the Universal Postal Convention, international mail items bearing the "express" logo receive priority handling in destination countries. A number of postal administrations take advantage of that provision by offering their customers an international mail service that is based on, but superior to, normal airmail service. In contrast, the only single-piece international service the Postal Service offers that is superior to

airmail is Express Mail International Service (EMS), which is significantly more expensive than airmail. In order to provide its customers with a wider range of international services, the Postal Service is implementing, on a pilot basis, WORLDPOST Priority Letter (WPL).

WPL is an expedited airmail service providing fast, reliable, and economical delivery of all items mailable as letters. Although a WPL item will travel in the normal airmail stream between the United States and the destination country, the item will receive priority handling in the United States and, typically, in the destination country. In the United States, after the item is deposited, the Postal Service will transport it in a dedicated stream to the appropriate gateway for dispatch. Upon arrival in the destination country, the item will also receive priority handling.

Initially, WPL is available to the following 14 countries: Australia, Belgium, Canada, France, Germany, Great Britain, Hong Kong, Japan, New Zealand, Norway, Singapore, Sweden, Taiwan, and The Netherlands. Based on the Postal Service's evaluation of WPL performance during the pilot test, the service may be extended to additional destination countries.

Initially, WPL is available only from specified ZIP Codes in the following seven metropolitan areas: Atlanta, Boston, Dallas/Fort Worth, Los Angeles, Miami, New York, and Washington, DC. The Postal Service chose these initial acceptance sites because of their ability to provide reliable transportation of items deposited there to the WPL gateways, as well as their potential to generate significant WPL volume. Based on the Postal Service's evaluation of WPL performance during the pilot test, the service may be extended to additional acceptance sites.

To use WPL, a customer will be required to place the material being mailed in either the small (5 inches by 8 7/8 inches) or large (9 inches by 11 1/2 inches) WPL envelope provided by the Postal Service. These envelopes bear the appropriate internationally recognized logo for this service. In addition, their colorful design will facilitate recognition of the items by U.S. and foreign postal employees, which will help to ensure that the items receive priority handling.

Rates are based on size (either small or large) and destination as follows:

Destination	Envelope size	
	Small	Large
Western Europe	\$3.75	\$6.95

Destination	Envelope size	
	Small	Large
Pacific Rim	4.95	8.95
Canada	3.75	6.95

Accordingly, the Postal Service hereby adopts WPL, on an interim basis, at the rates set forth in the schedule above. Although 39 U.S.C. 407 does not require advance notice and opportunity for submission of comments, and the Postal Service is exempted by 39 U.S.C. 410(a) from the advance notice requirements of the Administrative Procedure Act regarding proposed rulemaking (5 U.S.C. 553), the Postal Service invites interested persons to submit written data, views, or arguments concerning the interim rule.

The Postal Service adopts the following amendments to the International Mail Manual, which is incorporated by reference in the Code of Federal Regulations. See 39 CFR 20.1.
