TSCA Section 8(e); Notice of Availability of Draft Policy and Reopening of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability and reopening of comment period.

SUMMARY: This Notice solicits additional public comment on certain refinements to EPA's policy concerning the mandatory reporting of information under section 8(e), the "substantial risk" information reporting provision of the Toxic Substances Control Act (TSCA) proposed in the **Federal Register** of July 13, 1993. EPA received numerous comments on the proposed changes during the comment period, which was extended to October 28, 1993. In the interim, EPA has, based on the public comments, modified the proposed changes to reflect many of the comments. However, to enhance the effectiveness of the guidance and to identify additional burden-reducing measures, EPA is offering the public an opportunity to review the draft policy text and submit additional comments. The draft policy text will be in the public docket.

DATES: Written comments on the reporting guidance must be submitted in triplicate and received by EPA no later than May 4, 1995.

ADDRESSES: All comments must be transmitted in triplicate to: TSCA Docket Receipts (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Attention: Docket No. OPPTS-80016.

FOR FURTHER INFORMATION CONTACT: James B. Willis, Acting Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD: (202) 554-0551. A copy of the draft policy may be obtained by contacting the TSCA Hotline at the telephone number listed above.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of June 20, 1991 (56 FR 28458), EPA announced that the Agency was suspending the applicability of Parts V(b)(1) and V(c) of EPA's 1978 Policy Statement which outlined the reportability of data on "widespread and previously unsuspected distribution in environmental media" and "emergency incidents of environmental

contamination," respectively, and would propose changes in the **Federal Register** at a later time. Revisions to the guidance presented in Part V(b)(1) of the 1978 Policy Statement were proposed in the **Federal Register** of July 13, 1993 (58 FR 37735).

EPA has used the comments received in response to the proposal to draft revised policy text that EPA believes responds to the main comments. EPA believes that the process to develop revised guidance would be greatly enhanced by allowing the public an opportunity to review the draft guidance and provide additional comments.

Consequently, EPA is making available for public comment the draft guidance text in the public docket. EPA is not including the draft preamble language or response to comments because they are subject to change due to this action. Copies of the guidance text can be obtained from the Agency contact listed under FOR FURTHER INFORMATION CONTACT above.
