

Sections 106 and 107 of CERCLA, 42 U.S.C. 9606 and 9607, for the Site except that claims of the United States against Champion regarding deep aquifer contamination were reserved.

The proposed Modification of Consent Decree requires Champion to implement the September 1993 Explanation of Significant Differences ("ESD") issued by EPA. The ESD waives the soils remediation levels for pyrene, naphthalene and phenanthrene while maintaining overall protectiveness of public health and the environment. The ESD also selects monitoring and institutional controls on usage as a final remedy for the deep aquifer. Under the proposed Modification of Consent Decree, Champion is required to implement the ESD and the covenants not to sue in the consent decree are extended to cover the deep aquifer contamination at the Site.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed Modification of Consent Decree. Comments should be addressed to the Assistant Attorney General of the Environment and Natural Resources Division, Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, DC 20044, and should refer to *United States v. Champion International Corporation*, DOJ Ref. No. 90-11-2-379.

Park, Helena, Montana 59626.
