DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Correction of Notice of Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Correction.

SUMMARY: A Notice beginning on page 9032 in the issue of February 16, 1995, entitled "Findings of Scientific Misconduct" is hereby reprinted in its entirety to correct the name of the university's organizational unit referenced in the original printing:

Aaron Apte, Stanford University: The Division of Research Investigations of the Office of Research Integrity (ORI) reviewed an investigation conducted by Stanford University into possible scientific misconduct on the part of Mr. Aaron Apte, a former technician in the Division of Cardiovascular Medicine. Mr. Apte and his research were supported by U.S. Public Health Service grants. ORI concluded that Mr. Apte fabricated data for research by cutting from a former coworker's notebook a scintillation counter printout, pasting it into his own notebook, and representing it as his own results from a different experiment on the binding of angiotensin to transfected cells. Mr. Apte has been debarred from eligibility for and involvement in grants as well as other assistance awards and contracts from the Federal Government for a period of three years. The fabricated research did not appear in any publications.

Grants for Education Programs in Occupational Safety and Health; Availability of Funds for Fiscal Year 1996

Introduction

The Centers for Disease Control and Prevention (CDC) announces that applications are being accepted for fiscal year (FY) 1996 training grants in occupational safety and health. This announcement reflects an initial

response of CDC/NIOSH to an external review of the NIOSH training and education programs which concluded that there should be more flexibility in the definition of academic programs and of what constitutes an Educational Resource Center. The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Occupational Safety and Health. (For ordering a copy of "Healthy
