Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision, Placer County Air Pollution Control District and San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing the approval of revisions to the California State Implementation Plan (SIP) proposed in the **Federal Register** on January 10, 1995. The revisions concern rules from the Placer County Air Pollution Control District (PCAPCD) and the San Diego County Air Pollution Control District

(SDCAPCD). This approval action will incorporate these rules into the federally approved SIP. The intended effect of approving these rules is to regulate emissions of volatile organic compounds (VOCs) in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). The revised rules control VOC emissions from metal can and coil coating operations and establish recordkeeping requirements for sources emitting VOCs. Thus, EPA is finalizing the approval of these revisions to the California SIP under provisions of the CAA regarding EPA action on SIP submittals, SIPs for national primary and secondary ambient air quality standards and plan requirements for nonattainment areas.

EFFECTIVE DATE: This action is effective on April 24, 1995.

ADDRESSES: Copies of the rules and EPA's evaluation report for each rule are available for public inspection at EPA's Region IX office during normal business hours. Copies of the submitted rules are available for inspection at the following locations:

SUPPLEMENTARY INFORMATION:

Background

On January 10, 1995 in 60 FR 2563, EPA proposed to approve the following rules into the California SIP: PCAPCD's Rule 223, Metal Container Coating; PCAPCD Rule 410, Recordkeeping for Volatile Organic Compound Emissions; and SDCAPCD Rule 67.4, Metal Container, Metal Closure, and Metal Coil Coating Operations. Rules 223 and 410 were adopted by PCAPCD on October 6, 1994 and November 3, 1994, respectively. Rule 67.4 was adopted by SDCAPCD on September 27, 1994. The rules were submitted by the State of California to EPA on November 30,

1994, December 19, 1994, and October 19, 1994, respectively. These rules were submitted in response to EPA's 1988 SIP-Call and the CAA section 182(a)(2)(A) requirement that nonattainment areas fix their reasonably available control technology (RACT) rules for ozone in accordance with EPA guidance that interpreted the requirements of the pre-amendment Act. A detailed discussion of the background for each of the above rules and nonattainment areas is provided in the NPRM cited above.

EPA has evaluated all of the above rules for consistency with the requirements of the CAA and EPA regulations and EPA interpretation of these requirements as expressed in the various EPA policy guidance documents referenced in the NPRM cited above. EPA has found that the rules meet the applicable EPA requirements. A detailed discussion of the rule provisions and evaluations has been provided in 60 FR 2563 and in technical support documents (TSDs) available at EPA's Region IX office (TSDs dated December 27, 1994, PCAPCD Rule 223; December 27, 1994, PCAPCD Rule 410; and December 27, 1994, SDCAPCD Rule 67.4).

Response to Public Comments

A 30-day public comment period was provided in 60 FR 2563. EPA received one comment letter from NAPP Systems, Inc. supporting EPA's proposed approval of SDCAPCD Rule 67.4.

EPA Action

EPA is finalizing action to approve the above rules for inclusion into the California SIP. EPA is approving the submittal under section 110(k)(3) as meeting the requirements of section 110(a) and Part D of the CAA. This approval action will incorporate these rules into the federally approved SIP. The intended effect of approving these rules is to regulate emissions of VOCs in accordance with the requirements of the CAA.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Regulatory Process

The OMB has exempted this action from review under Executive Order 12866.

Control of Air Pollution From New Motor Vehicles and New Motor Vehicle Engines: Regulations Requiring On-Board Diagnostic (OBD) Systems—Acceptance of Revised California OBD II Requirements; OBD Relief for Alternative Fueled Vehicles; and Revisions for Consistency Between Federal OBD and California OBD II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: This direct final rulemaking revises requirements associated with on-board diagnostic (OBD) systems. The federal OBD rulemaking, published February 19, 1993, allowed for compliance with California OBD II requirements as satisfying federal OBD requirements through the 1998 model year, an allowance of which most original equipment automobile manufacturers intend to take advantage. The California Air Resources Board has recently revised their OBD II requirements. The federal OBD regulations require appropriate revisions such that compliance with the recently revised OBD II requirements will satisfy federal OBD. Additionally, aspects of the federal OBD requirements will be revised and updated, in some cases to maintain consistency with the OBD II provisions, including providing OBD relief for alternative fueled vehicles, and in some cases to clarify federal OBD provisions. Finally, consistent with an order from the Court of Appeals for the District of Columbia, the federal regulations are being revised to delete a requirement that manufacturers include certain features to deter tampering on affected vehicles.

DATES: This final action will become effective on May 22, 1995 unless notice is received by April 24, 1995 that any person wishes to submit adverse comments. Should EPA receive such notice, EPA will publish subsequent action in the **Federal Register** withdrawing all or part of this final action.
