#### Notice of Proposed Reinstatement of Terminated Oil and Gas Lease

Pursuant to the provisions of 30 U.S.C. 188(d) and (e), and 43 CFR 3108.2-3(a) and (b)(1), a petition for reinstatement of oil and gas lease WYW121982 for lands in Laramie County, Wyoming, was timely filed and was accompanied by all the required rentals accruing from the date of termination. The lessee has agreed to the amended lease terms for rentals and royalties at rates of \$10.00 per acre, or fraction thereof, per year and 16 $\frac{2}{3}$  percent, respectively.

The lessee has paid the required \$500 administrative fee and \$125 to reimburse the Department for the cost of this **Federal Register** notice. The lessee has met all the requirements for reinstatement of the lease as set out in Section 31 (d) and (e) of the Mineral Lands Leasing Act of 1920 (30 U.S.C. 188), and the Bureau of Land Management is proposing to reinstate lease WYW121982 effective November 1, 1994, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

#### Notice of Realty Action: Plan Amendment for the Exchange of Public and Private Lands in Fergus County, Montana

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Designation of public lands in Fergus County, Montana, for transfer out of Federal ownership in exchange for lands owned by CR Kendall. The Bureau of Land Management (BLM) is also providing notice of a plan amendment to the Judith-Valley-Phillips Resource Management Plan for the public lands.

**SUMMARY:** The public will gain private lands with wildlife habitat and recreation potential in addition to public access to the North Moccasin Mountains. Disposal of public lands with relatively low public values will help meet the management goals for the area where the public will gain private land with high resource values and public access. Therefore, this exchange is in the public interest. The Bureau of Land Management has advised State and local officials regarding the proposed exchange.

The following described public lands are suitable for disposal by exchange under Section 206 of the Federal Land Management Act of 1976, 43 U.S.C. 1716.

##### Principal Meridian Montana

T. 18 N., R. 18 E.,  
Section 29, Lots 1, 2, 5, 7, 8, 13, 14;  
Section 31, Lots 8, 9, 16, 18, 19, 23, 25;  
Section 32, Lots 2, 3, 4;  
Containing 150.51 acres

The United States will exchange this public land to acquire the following described private land:

##### Principal Meridian Montana

T. 18 N., R. 17 & 18 E.,  
MS 6366—Abbey Lode  
MS 6727—Extension Lode  
MS 6728—Keno Lode  
MS 8470—Arizona Lode  
MS 8471—Fox Lode  
MS 8472—Mason Lode  
MS 8473—Placer Lode  
MS 8474—Legal Tender Lode  
Containing 129.24 acres

**DATES:** The effective date of this plan amendment decision and proposed exchange notice is March 23, 1995.

Any person who participated in the Judith-Valley-Phillips Resource Management Plan Amendment for the CR Kendall exchange having an interest or adversely affected by the amendment may protest such amendment as stated in 43 CFR 1610.5-2. The protest shall be in writing and filed on or before April 24, 1995. Send protests to: Director

(480), Bureau of Land Management, Resource Planning Team, P. O. Box 65755, Washington, D.C. 20036. The protest must contain:

1. The name, mailing address, telephone number and interest of the person filing the protest.

2. A statement of the issue or issues being protested.

3. A statement of the part or parts of the amendment being protested.

4. A copy of all documents addressing the issue or issues submitted during the planning process by the protesting party or an indication of the discussion date of the issue(s) for the record.

5. A concise statement explaining why the State Director's decision may be wrong.

From March 23, 1995 through May 8, 1995, interested parties may submit written comments to Chuck Otto, Resource Area Manager, Bureau of Land Management, Box 1160, Lewistown MT, 59457. Any adverse comments will be evaluated by the BLM, Montana State Director, who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

**FOR FURTHER INFORMATION CONTACT:** Information related to the Exchange, including the Plan Amendment and Environmental Assessment, is available for review at the Lewistown District Office, P. O. Box 1160, Lewistown MT 59457.

**SUPPLEMENTARY INFORMATION:** The publication of this notice segregates the public lands described above from settlement, sale, location and entry under the public land laws, including the mining laws, but not from exchange pursuant to Section 206 of the Federal Land Policy and Management Act of 1976 for a period of two years from the date of first publication. The exchange will be made subject to:

1. A reservation to the United States of a right-of-way for ditches or canals in accordance with 43 U.S.C. 945.

2. A 60 foot wide right-of-way reservation, 30 feet on either side of the centerline, to the United States on a road, approximately one-half mile in length, crossing those Federal lands to be conveyed to CR Kendall, specifically Lots 1 and 5, section 29, T18N R18E, and a 60 foot wide permanent, exclusive easement, 30 feet on either side of the centerline, from CR Kendall to the United States on that same road, which crosses sections 29, 31 and 32, T18N R18E.

3. The exchange must meet the requirements of 43 CFR 4110.4-2(b).

This exchange is consistent with Bureau of Land Management policies

and planning and has been discussed with State and local officials. The estimated intended time of the exchange is March 1995. The public interest will be served by completion of this exchange since it will enable the Bureau of Land Management to acquire lands with high public values, public access, and will increase management efficiency of public lands in the area.

Dated: March 13, 1995.

**Availability Notice; Royal Gorge Resource Area Proposed Resource Management Plan and Final Environmental Impact Statement; Colorado**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Availability of the Royal Gorge Proposed Resource Management Plan and Final Environmental Impact Statement. This document is now available to the public for a 30 day protest period.

**SUMMARY:** The Bureau of Land Management, Canon City District, Royal Gorge Resource Area office has prepared a proposed resource management plan (PRMP) and final environmental impact statement (FEIS) for the Royal Gorge Resource Area (RGRA) in accordance with the Federal Land Policy and Management Act of 1976 (FLPMA) and 43 CFR part 1600. A draft resource management plan (DRMP) and environmental impact statement (DEIS) for the RGRA was made available to the public in September of 1993 for a 90 day review and comment period. Substantial public comment was received through three public hearings and 180+ written letters. More than nine hundred specific comments were received with the largest concern related to and disagreeing with the recommendation not to designate the 126 miles of the Upper Arkansas River and the 20 miles of Beaver Creek as Wild & Scenic River. These comments have been responded to within the PRMP/FEIS. This final plan replaces and supersedes all existing land use plans and other related environmental documents. This final plan establishes ten ecological subregions upon which all the decisions within the plan are focused. This final

plan establishes resource conditions for, provides for managing and allocating of BLM administered land and mineral resources in the RGRA for the next 15 to 20 years. Located in eastern Colorado, the RGRA encompasses 653,000 acres of Federal surface estate and 2,566,000 acres of Federal subsurface mineral estate within Baca, Brent, Chaffee, Crowley, Custer, El Paso, Fremont, Huerfano, Kiowa, Lake, Las Animas, Otero, Park, Prowers, Pueblo, and Teller counties.

Only those parties who made substantial comments to BLM on the RGRA/DEIS during the 90 day review and comment period would be considered to have standing for protest of the decisions within this plan.

**DATES:** The PRMP/FEIS protest period will begin on March 27, 1995, and will run through close of business on April 26, 1995.

**ADDRESSES:** Interested parties may obtain a copy of the PRMP/FEIS from the Bureau of Land Management, Royal Gorge Resource Area, 3170 East Main Street, Canon City, CO 81212.

**FOR FURTHER INFORMATION CONTACT:** Dave Taliaferro, RMP Project Manager, at (719) 539-7560 or Paul Trentzsch, Royal Gorge Area Manager, at (719) 275-0631.

**SUPPLEMENTARY INFORMATION:** Some of the highlights of the PRMP/FEIS are:

1. The plan focuses on the principles of multiple use and sustained yield as mandated by section 202 of FLPMA. The plan directs future resource condition objectives, land use allocations, and management actions.
2. The plan designates nine areas of critical environmental concern (ACEC's) these being a. Mosquito Pass (4,036 acres), b. Browns Canyon (11,697 acres), c. Droney Gulch (705 acres), d. Arkansas Canyonlands (23,921 acres), e. Grape Creek (15,978 acres), f. Garden Park (2,728 acres), g. Phantom Canyon (6,096 acres), h. Beaver Creek (12,081 acres), and i. Cucharas Canyon (1,314 acres).
3. The plan serves as the final environmental impact statement required for the Wild and Scenic River Act. Twenty miles of Beaver Creek and 126 miles of the Arkansas River were analyzed and found to be eligible and suitable for potential designation under the Wild and Scenic River Act. BLM management directs within the final plan and all 146 stream miles not be recommended to Congress as a potential addition to the National Wild and Scenic River System. These streams would be managed under a protective interim management prescription for a period of three years after the Approved

Resource Management Plan (ARMP)/ Record of Decision (ROD) is signed.

4. The plan did carry out an analysis and does recommend that 197,000 acres in the Arkansas River Corridor be recommended to Congress to be designated as a National Recreation Area. This would include the segments of the Arkansas River that were determined to be eligible and suitable for Wild and Scenic River designation.

Upon the closing of the protest period the ARMP/ROD will be prepared and would be tentatively scheduled to be completed by September of 1995.
