Supporting Statement For Construction Trades Apprenticeship Grant Program

A. Justification.

1. This Grant Program is authorized under subtitle D of Title IV of the Cranston-Gonzales National Affordable Housing Act (P.L. 101-625, approved 11/28/90). The \$8.5 million for the Grant Program is funded from the \$10 million appropriated under the heading "Severely Distressed Public Housing Projects," as contained in the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act for 1994 (P.L. 103-124, approved 10/28/93). The Demonstration Program will provide job training and ensure bonafide apprenticeship employment opportunities in the construction trades that will lead to self-sufficiency for public housing residents.

2. Eligible applicants (Public Housing Agencies) will submit to HUD a proposal in response to an announcement in the **Federal Register** which requests a one-time submission of information describing its program. HUD needs this information to rate and rank eligible applicants against specific requirements to approve/disapprove them for funding under this Program.

3. Information technology was not considered for collection of this information because eligible applicants are the only means for obtaining the information.

4. This information cannot be duplicated and is not available in the Department.

5. The collection of this information does not impact on a substantial number of small businesses or small entities.

6. The information is collected one-time as funding availability is announced in the **Federal Register**.

7. There are no special circumstances that require the collection to be

conducted in a manner inconsistent with the general information collection guidelines in 5 CFR 1320.6.

8. There was no consultation with persons outside the agency. The Notice will allow for interested persons to submit comments.

9. There are no assurances of confidentiality provided to applicants.

10. There are not questions of a sensitive nature.

11. There will be no additional costs to the Federal Government or the applicants. Applicants (PHAs) prepare proposals/applications frequently to compete for grant funds and preparation of this proposal would not create any additional burden which would result in added costs. HUD Field staff will review the proposals as part of their normal workload at no additional costs.

12. The reporting burden associated with this information collection is as follows:

Requirement	No. of respondents	Freq. of responses	Est. avg. response time (hours)	Estimated annual burden (hours)
Threshold Criteria	63	1	36	2,268
Proposal	63	1	48	3,024
Reporting	63	1	4	252
Total Reporting Burden	5,544

13. This is a new collection which will implement a Grant Program.

14. There are no plans to publish this information for statistical purposes.
