

of habitat for *Aphelocoma coerulescens* and exposure of the Applicant under Section 9 of the Act. A second alternative is the proposed Project that is designed with a different mitigation strategy focusing on management of existing lands surrounding the project area. The third alternative, the proposed action alternative, is issuance of the incidental take permit. This provides for restrictions of construction activity, purchase of offsite habitat for the Florida scrub jay, the establishment of an endowment fund for the offsite acquired habitat, and donation of additional offsite habitat. The HCP provides a funding mechanism for these mitigation measures.
