

Burden Statement: The estimated average public reporting burden for this collection varies from 4 hours per response (e.g., nonwastewater exemption) to 1,618 hours per response (e.g., delisting petition) depending on the type of petition or demonstration. This estimate includes all aspects of the information collection including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The estimated annual recordkeeping burden varies from 11 to 73 hours per recordkeeper, depending on the type of petition or demonstration.

Respondents: Facilities generating hazardous and solid waste, generators and collectors of treatability study samples, and laboratories and other facilities conducting treatability studies.

Estimated Number of Respondents: 250.

Estimated Number of Responses Per Respondent: 1.

Estimated Total Annual Burden on Respondents: 39,937 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, (please refer to EPA ICR # 1189.05 and OMB # 2050-0053) to:

Sandy Farmer, EPA ICR # 1189.05, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, S.W., Washington, D.C. 20460

and

Jonathan Gledhill, OMB # 2050-0053, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., N.W., Washington, D.C. 20503

Dated: March 16, 1995.

David Schwarz,

Acting Director, Regulatory Management Division.

[FRL-5178-1]

Public Water System Supervision Program Revision for the Government of the Virgin Islands

AGENCY: United States Environmental Protection Agency (USEPA).

ACTION: Notice.

SUMMARY: Notice is hereby given that the Government of the Virgin Islands is revising its approved Public Water System Supervision Primacy Program.

The Government of the Virgin Islands has adopted drinking water regulations that satisfy the National Primary Drinking Water Regulations for the Synthetic Organic Chemicals and Inorganic Chemicals; Monitoring for Unregulated Contaminants rule (Phase 2) Monitoring for Volatile Organic Chemicals rule (Phase 2B), and the Synthetic Organic Chemicals and Inorganic Chemicals rule (Phase 5). These regulations were promulgated by EPA on January 30, 1991 (56 FR 3526), July 1, 1991 (56 FR 30266) with May 27, 1992 correction (57 FR 22178); and July 17, 1992 (57 FR 31776), respectively.

The USEPA has determined that the Virgin Islands' Phase 2, 2B and 5 regulations are no less stringent than the corresponding Federal regulations and that the Virgin Islands continues to meet all requirements for primary enforcement responsibility as specified in 40 CFR 142.10. All interested parties, other than Federal Agencies, may request a public hearing. A request for a public hearing must be submitted to the USEPA Regional Administrator at the address shown below within thirty (30) days after the date of this **Federal Register** notice. If a substantial request for a public hearing is made within the required thirty-day period, a public hearing will be held and a notice will be given the **Federal Register** and a newspaper of general circulation. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator.

If no timely and appropriate request for a hearing is received and the Regional Administrator does not choose to hold a hearing on his/her motion, this determination shall become final and effective thirty (30) days after publication of this **Federal Register** notice.

Any request for a public hearing shall include the following information:

- (1) The name, address and telephone number of the individual organization or other entity requesting a hearing;
- (2) A brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement on information that the requesting person intends to submit at such hearing;
- (3) The signature of the individual making the requests or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: Requests for Public Hearing shall be addressed to: Carl-Axel P. Soderberg—Director, U.S. Environmental Protection Agency,

Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907.

All documents relating to this determination are available for inspection between the hours of 9 am and 4:30 pm, Monday through Friday, at the following offices:

Department of Planning and Natural Resources, Public Water Supply Supervision Program, Government of the Virgin Islands, Nisky Center, Suite 231, Nisky 45A, St. Thomas, Virgin Islands 00802

U.S. Environmental Protection Agency, Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907

U.S. Environmental Protection Agency—Region II, Public Water System Supervision Section Room 853, Jacob K. Javits Federal Building, 26 Federal Plaza, New York, New York 10278

For further information, you may contact: Victor Trinidad, Chief, Water Management Staff, U.S. Environmental Protection Agency, Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907, (809) 729-6951.

(Section 1413 of the Safe Drinking Water Act, as amended, and 40 CFR 142.10 of the NPDWR)

Dated: February 28, 1995.

William J. Muszynski,

Acting Regional Administrator, EPA, Region II.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Availability of Documents for "Contamination Monitoring Standard for a Portal Monitor Used for Radiological Emergency Response"

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: FEMA announces the availability of three documents: "Contamination Monitoring Standard for a Portal Monitor Used for Emergency Response" (the Standard); "Background Information for the Contamination Monitoring Standard for a Portal Monitor Used for Emergency Response" (background information), and "Statements of Consideration for the Contamination Monitoring Standard for

a Portal Monitor Used for Emergency Response" (resolution of comments).

ADDRESSES: Copies of the documents may be obtained by contacting Ralph A. Myers, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202)646-3084, (facsimile) (202)646-3486.

FOR FURTHER INFORMATION CONTACT: Ralph A. Myers, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202)646-3084, (facsimile) (202)646-3486.

SUPPLEMENTARY INFORMATION: In the event of an accident at a commercial nuclear power plant, the public may be exposed to airborne or deposited radioactive material if significant amounts of radioactive particulate materials are released to the atmosphere. The Standard sets the level for detection by a portal monitor of radioactive contamination that, if detected, would warrant decontamination measures. The objective is to minimize the risk of health effects to an individual from external radioactive contamination on the skin and clothing. The background document provides a detailed discussion of the scientific basis and rationale supporting selection of the numerical value of this Standard.

The portal monitor must have the capability to detect at least one microcurie (μCi) of radionuclides that emit beta and gamma radiation, in the form of surface contamination with a widespread nonuniform distribution over an individual. One or more cesium-137 (Cs-137) sealed source(s) with a total activity not exceeding one microcurie (μCi) shall be used for determining compliance with the Standard. Detectability of this amount of radioactivity shall be demonstrated by the manufacturer to cognizant State or local government officials with the Cs-137 source(s) located at several points along a vertical line centered between the two side columns of the unit between 0.5 feet and 5.5 feet above the base upon which the individual stands when being monitored. It is the responsibility of cognizant State or local government officials (not FEMA or other Federal agencies) to determine and assure that portal monitors intended for use for commercial nuclear power plant accidents meet this Standard. Such officials should document the intended use of portal monitors in their emergency plans. State and local governments that use or intend to use portal monitors should assure compliance with this Standard by April 30, 1996.

Since the issuance of this Standard constitutes guidance for State and local governments, alternative approaches for meeting the intent of this Standard may be proposed by State and local governments for review, evaluation, and approval by FEMA. Such alternative approaches should be submitted to the applicable FEMA Regional Director for review, recommendation, and forwarding to FEMA Headquarters for disposition.

This Standard will be incorporated in the "Radiological Emergency Preparedness (REP) Exercise Manual" (FEMA-REP-14).

Kay C. Goss,

Associate Director, Preparedness, Training, and Exercises Directorate.

FEDERAL LABOR RELATIONS AUTHORITY

Federal Service Labor-Management Relations Statute; Collective Bargaining; Comment Solicitation for Policy Statement

AGENCY: Federal Labor Relations Authority.

ACTION: Clarification of response deadline.

SUMMARY: The Federal Labor Relations Authority (Authority) published a Notice on March 16, 1995, 60 FR 14285, soliciting comments concerning the issuance of a policy statement. The Authority indicated in the section entitled "DATES" that comments must be received by the Authority by close of business on April 17, 1995, to be considered. However, the body of the Notice indicated that comments must be received by close of business on April 14, 1995, to be considered. This Notice clarifies that the deadline for submitting comments is April 17, 1995.

Dated: March 20, 1995.

Federal Labor Relations Authority.

Solly Thomas,

Executive Director.

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice.

BACKGROUND: On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board of Governors of the Federal Reserve System (Board) its approval authority under the Paperwork Reduction Act of 1980, as per 5 CFR 1320.9, to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board under conditions set forth in 5 CFR 1320.9. Board-approved collections of information will be incorporated into the official OMB inventory of currently approved collections of information. A copy of the OMB 83I and supporting statement and the approved collection of information instrument will be placed into OMB's public docket files. The following form, which is being handled under this
