BILLING CODE 6717-01-M

[Docket No. CP95-259-000]

### National Fuel Gas Supply Corporation; Notice of Request Under Blanket Authorization

March 17, 1995.

Take notice that on March 13, 1995, National Fuel Gas Supply Corporation (National Fuel), 10 Lafayette Square, Buffalo, New York 14203, filed a request with the Commission in Docket No. CP95-259-000 pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to operate a delivery tap, authorized in blanket certificate issued in Docket No. CP83-4-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

National Fuel proposes to operate an existing delivery tap, which would be available as a delivery point for any shipper receiving transportation service from National Fuel. The delivery tap is located between National Fuel's Line N and the Three River Pipeline, in Independence Township, Beaver County, Pennsylvania. National Fuel states that the proposed quantities of natural gas to be delivered to each of the affected delivery points and end-use of the gas would be up to 60,000 Dth per day. National Fuel also states that the gas would serve various commercial, industrial and residential end-users downstream of the Three Rivers Pipeline.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request. If no protest is filed within the

allowed time, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the NGA.

**Linwood A. Watson, Jr.,**

*Acting Secretary.*

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-5178-1]

### Agency Information Collection Activities Under OMB Review

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected cost and burden.

**DATES:** Comments must be submitted on or before April 24, 1995.

**FOR FURTHER INFORMATION OR A COPY OF THIS ICR CONTACT:** Sandy Farmer at EPA, (202) 260-2740, please refer to EPA ICR # 1189.05.

#### SUPPLEMENTARY INFORMATION:

#### Office of Solid Waste and Emergency Response

*Title:* Identification, Listing, and Rulemaking Petitions (ICR No. 1189.05). This is a renewal and amendment of an approved collection (OMB No. 2050-0053). This renewal includes Part 260 and 261 requirements pertaining to wood-preserving waste (ICR No. 1579) previously approved under OMB No. 2050-0115.

*Abstract:* This ICR is a comprehensive presentation of the information requirements to apply for petitions, variances, exclusions, and exemptions from various RCRA requirements, as provided in Subpart C of 40 CFR Part 260 and 261.

For rulemaking petitions, all petitioners must submit certain basic information, including name and address, and interest in, description of, and need and justification for the proposed action. In addition, petitioners

for equivalent testing or analytical methods must also demonstrate that the proposed method is equal to or superior to the specified method and provide additional information such as a description of proposed method and comparative results of proposed and specified methods. Petitioners seeking to delist a waste produced at a particular facility must demonstrate that the waste does not exhibit the characteristics for which it was listed or any additional factors which may cause the waste to be hazardous. Facilities requesting variances from classification as a solid waste for specified recycled materials must address the relevant criteria contained in § 260.31. EPA uses this information to substantiate that these materials actually are being recycled and are not being accumulated to evade hazardous waste regulation. Owners/operators of enclosed flame combustion devices requesting variances for classification as a boiler must demonstrate the compatibility of the proposed device with classification as a boiler and address the relevant criteria detailed in §§ 260.32 and 260.33 in their demonstrations.

For hazardous waste exclusions, §§ 261.3 and 261.4 contain provisions that allow generators to obtain a hazardous waste exclusion for certain types of wastes. Facilities applying for these exclusions must either submit supporting information or keep detailed records. Facility requirements for treatability study exemptions for samples of hazardous waste not subject to DOT or USPS shipping requirements must comply with the information requirements of § 261.4(d)(2). Information requests include initial notification, recordkeeping, reporting, and final disposition notification. Facilities generating and collecting treatability study samples may also petition to increase sample quantity limits in excess of the specified limits. EPA uses this information to track the treatability study sample wastes, to confirm the proper management of these wastes, and to ensure that only legitimate treatability study activities are conducted.

For hazardous waste listing exemptions, 40 CFR 261.31(b)(2)(ii) details informational requirements for generators and treatment, storage and disposal facilities proving their sludges are exempt from listing as F037 and F038 wastes. Section 261.35(b) and (c) sets out the requirements for the cleaning or replacement of all process equipment that may have come into contact with chlorophenolic formulations or constituents.

**Burden Statement:** The estimated average public reporting burden for this collection varies from 4 hours per response (e.g., nonwastewater exemption) to 1,618 hours per response (e.g., delisting petition) depending on the type of petition or demonstration. This estimate includes all aspects of the information collection including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The estimated annual recordkeeping burden varies from 11 to 73 hours per recordkeeper, depending on the type of petition or demonstration.

**Respondents:** Facilities generating hazardous and solid waste, generators and collectors of treatability study samples, and laboratories and other facilities conducting treatability studies.

**Estimated Number of Respondents:** 250.

**Estimated Number of Responses Per Respondent:** 1.

**Estimated Total Annual Burden on Respondents:** 39,937 hours.

**Frequency of Collection:** On occasion.

Send comments regarding the burden estimate, or any other aspect of this collection of information, including suggestions for reducing the burden, (please refer to EPA ICR # 1189.05 and OMB # 2050-0053) to:

Sandy Farmer, EPA ICR # 1189.05, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, S.W., Washington, D.C. 20460

and

Jonathan Gledhill, OMB # 2050-0053, Office of Management and Budget, Office of Information and Regulatory Affairs, 725 17th St., N.W., Washington, D.C. 20503

Dated: March 16, 1995.

### Public Water System Supervision Program Revision for the Government of the Virgin Islands

**AGENCY:** United States Environmental Protection Agency (USEPA).

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the Government of the Virgin Islands is revising its approved Public Water System Supervision Primacy Program.

The Government of the Virgin Islands has adopted drinking water regulations that satisfy the National Primary Drinking Water Regulations for the Synthetic Organic Chemicals and Inorganic Chemicals; Monitoring for Unregulated Contaminants rule (Phase 2) Monitoring for Volatile Organic Chemicals rule (Phase 2B), and the Synthetic Organic Chemicals and Inorganic Chemicals rule (Phase 5). These regulations were promulgated by EPA on January 30, 1991 (56 FR 3526), July 1, 1991 (56 FR 30266) with May 27, 1992 correction (57 FR 22178); and July 17, 1992 (57 FR 31776), respectively.

The USEPA has determined that the Virgin Islands' Phase 2, 2B and 5 regulations are no less stringent than the corresponding Federal regulations and that the Virgin Islands continues to meet all requirements for primary enforcement responsibility as specified in 40 CFR 142.10. All interested parties, other than Federal Agencies, may request a public hearing. A request for a public hearing must be submitted to the USEPA Regional Administrator at the address shown below within thirty (30) days after the date of this **Federal Register** notice. If a substantial request for a public hearing is made within the required thirty-day period, a public hearing will be held and a notice will be given the **Federal Register** and a newspaper of general circulation. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator.

If no timely and appropriate request for a hearing is received and the Regional Administrator does not choose to hold a hearing on his/her motion, this determination shall become final and effective thirty (30) days after publication of this **Federal Register** notice.

Any request for a public hearing shall include the following information:

- (1) The name, address and telephone number of the individual organization or other entity requesting a hearing;
- (2) A brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement on information that the requesting person intends to submit at such hearing;
- (3) The signature of the individual making the requests or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

**ADDRESSES:** Requests for Public Hearing shall be addressed to: Carl-Axel P. Soderberg—Director, U.S. Environmental Protection Agency,

Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907.

All documents relating to this determination are available for inspection between the hours of 9 am and 4:30 pm, Monday through Friday, at the following offices:

Department of Planning and Natural Resources, Public Water Supply Supervision Program, Government of the Virgin Islands, Nisky Center, Suite 231, Nisky 45A, St. Thomas, Virgin Islands 00802

U.S. Environmental Protection Agency, Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907

U.S. Environmental Protection Agency—Region II, Public Water System Supervision Section Room 853, Jacob K. Javits Federal Building, 26 Federal Plaza, New York, New York 10278

For further information, you may contact: Victor Trinidad, Chief, Water Management Staff, U.S. Environmental Protection Agency, Caribbean Field Office, Centro Europa Building, 1492 Ponce De Leon Avenue, Suite—417, Santurce, Puerto Rico 00907, (809) 729-6951.

(Section 1413 of the Safe Drinking Water Act, as amended, and 40 CFR 142.10 of the NPDWR)

Dated: February 28, 1995.

**William J. Muszynski,**

*Acting Regional Administrator, EPA, Region II.*

### FEDERAL EMERGENCY MANAGEMENT AGENCY

#### Availability of Documents for "Contamination Monitoring Standard for a Portal Monitor Used for Radiological Emergency Response"

**AGENCY:** Federal Emergency Management Agency (FEMA).

**ACTION:** Notice.

**SUMMARY:** FEMA announces the availability of three documents: "Contamination Monitoring Standard for a Portal Monitor Used for Emergency Response" (the Standard); "Background Information for the Contamination Monitoring Standard for a Portal Monitor Used for Emergency Response" (background information), and "Statements of Consideration for the Contamination Monitoring Standard for
