Notice of Proposed Withdrawal and Opportunity for Public Meeting; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management proposes to withdraw 5,117 acres of public land in Imperial County to facilitate the All-American Canal Lining Project. This notice closes

the land for up to 2 years from surface entry and mining. The land will remain open to mineral leasing and the Materials Act of 1947.

DATES: Comments and requests for a public meeting must be received by June 21, 1995.

ADDRESSES: State Director, BLM (CA-931.13), Federal Building, Room E-2845, 2800 Cottage Way, Sacramento, California 95825-1889.

FOR FURTHER INFORMATION CONTACT: Duane Marti, BLM California State Office, 916-979-2858.

SUPPLEMENTARY INFORMATION: On March 13, 1995, a petition was approved allowing the Bureau of Reclamation to file an application to withdraw the following described public land from settlement, sale, location, or entry under the general land laws, including the mining laws, subject to valid existing rights:

San Bernardino Meridian

T. 16 S., R. 20 E.,
 Sec. 21, SE $\frac{1}{4}$;
 Sec. 22, SW $\frac{1}{4}$;
 Sec. 26, NW $\frac{1}{4}$ NW $\frac{1}{4}$;
 Sec. 27, N $\frac{1}{2}$;
 Secs. 28 to 29, inclusive;
 Sec. 33;
 Secs. 44 to 45, inclusive;
 Secs. 49 to 51, inclusive.

The area described contains approximately 5,117 acres in Imperial County.

The purpose of the proposed withdrawal is to facilitate the All-American Canal Lining Project.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the California State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the California State Director within 90 days from the date of publication of this notice. Since the proposed withdrawal involves more than 5,000 acres in the aggregate, at least one public meeting will be held as required by 43 CFR 2310.3-1(b)(2)(v). A notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which may be permitted during this segregative period are those which are

compatible with the use of the land by Bureau of Reclamation.

Dated: March 17, 1995.

BILLING CODE 4310-40-P

Fish and Wildlife Service

Availability of an Environmental Assessment and Receipt of an Application for an Incidental Take Permit for a Project Called Waterside Down, Phase I, a Mixed-Use Project, in Brevard County, Florida

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: Waterside Down Development Corporation (Applicant), is seeking an incidental take permit from the Fish and Wildlife Service (Service), pursuant to Section 10(a)(1)(B) of the Endangered Species Act of 1973 (Act), as amended. The permit would authorize the take of four families of the threatened Florida scrub jay, *Aphelocoma coerulescens* in Brevard County, Florida, for a period of 5 years. The proposed taking is incidental to construction of 211 single family homes, plus as yet unspecified number of condominium units and commercial buildings, including the necessary infrastructure, on approximately 76.5 acres (Project). The entire site is considered occupied by Florida scrub jays and will be permanently altered. The Project is called Waterside Down, and it is located on the barrier island of Brevard County, adjacent to a Wal Mart/Albertson strip mall and Brittany Apartments to the north, S.R. A1A to the east, Holy Name of Jesus Church and a residential development to the south, and vacant land scheduled to be Waterside Down Phase II on the west.

The Service also announces the availability of an environmental assessment (EA) and habitat conservation plan (HCP) for the incidental take application. Copies of the EA or HCP may be obtained by making a request to the Regional Office address below. This notice also advises the public that the Service has made a preliminary determination that issuing the incidental take permit is not a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended. The Finding of No Significant Impact is based on

information contained in the EA and HCP. The final determination will be made no sooner than 30 days from the date of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act Regulations (40 CFR 1506.6).

DATES: Written comments on the permit application, EA and HCP should be received on or before April 24, 1995.

ADDRESSES: Persons wishing to review the application, HCP, and EA may obtain a copy by writing the Service's Southeast Regional Office, Atlanta, Georgia. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office, or the Jacksonville, Florida, Field Office. Written data or comments concerning the application, EA, or HCP should be submitted to the Regional Office. Please reference permit under PRT-800150 in such comments.

Regional Permit Coordinator, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345, (telephone 404/679-7110, fax 404/679-7280).

Field Supervisor, U.S. Fish and Wildlife Service, 6620 Southpoint Drive, South, Suite 310, Jacksonville, Florida 32216-0912, (telephone 904/232-2580, fax 904/232-2404).

FOR FURTHER INFORMATION CONTACT: Dawn Zattau at the Jacksonville, Florida, Field Office, or Rick G. Gooch at the Atlanta, Georgia, Regional Office.

SUPPLEMENTARY INFORMATION: *Aphelocoma coerulescens* is geographically isolated from other subspecies of scrub jays found in Mexico and the Western United States. The Florida scrub jay is found almost exclusively in peninsular Florida and is restricted to scrub habitat. The total estimated population is between 7,000 and 11,000 individuals. Due to habitat loss and degradation throughout the State of Florida, it has been estimated that the Florida scrub jay population has been reduced by at least half in the last 100 years. Surveys have indicated that two families of Florida scrub jays inhabit the Project site. Construction of the Project's infrastructure and subsequent construction of the individual homesites will likely result in death of, or injury to, *Aphelocoma coerulescens* incidental to the carrying out of these otherwise lawful activities. Habitat alteration associated with property development will reduce the availability of feeding, shelter, and nesting habitat.

The EA considers the environmental consequences of three alternatives. The no action alternative may result in loss
