Environmental Documentation

We have made a preliminary determination that this action does not constitute a major Federal action significantly affecting the quality of the human environment. Preliminary environmental documentation has been prepared for the proposed nationwide permit. This documentation includes a preliminary environmental assessment and a preliminary Section 404(b)(1) Guidelines compliance review. Copies of these documents are available for inspection at the office of the Chief of Engineers and at each Corps District office. Based on these documents the Corps has provisionally determined that the proposed NWP complies with the requirements for issuance under general permit authority.
