ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[DC 13-1-6552b; FRL-5177-8]

Approval and Promulgation of Air Quality Implementation Plans; District of Columbia; Disapproval of New Source Review Regulations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to disapprove a State Implementation Plan (SIP) revision submitted by the District of Columbia pertaining to the regulation of major new and major modified sources locating in the District of Columbia. The intended effect of this action is to disapprove the District of Columbia regulations because they do not meet the requirements of the Clean Air Act. This action is being taken under section 110 of the Clean Air Act. In the Final Rules section of this **Federal Register**, EPA is disapproving the State's SIP revision as a direct final rule without prior proposal because the Agency has determined that the rationale to disapprove this SIP revision strongly supports that decision and anticipates no adverse comments. A detailed rationale for the disapproval is set forth in the direct final rule and in the accompanying technical support document. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by April 24, 1995.

ADDRESSES: Written comments on this action should be addressed to Marcia L. Spink, Associate Director, Air Programs (3AT00), U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107 and the District of Columbia Department of Consumer and Regulatory Affairs, 2100 Martin Luther King Ave, SE., Washington, DC 20020.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Chapter I

[IC Docket No. 94-31; DA 95-421]

Preparation for International ITU World Radiocommunication Conferences

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extending comment period.

SUMMARY: This order grants a request by COMSAT Mobile Communications Division of COMSAT Corporation to extend the time for filing reply comments in response to the Second Notice of Inquiry. The deadline for filing reply comments is extended from March 21, 1995, to April 14, 1995.

DATES: Reply comments must be filed on or before April 14, 1995.

ADDRESSES: Federal Communications Commission, 1919 M St., N.W., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Audrey L. Allison, International Bureau, (202) 739-0557 or Damon C. Ladson, International Bureau, (202) 739-0510.

SUPPLEMENTARY INFORMATION:

Order

1. COMSAT Corporation's COMSAT Mobile Communications Division (COMSAT) requests that the time for filing reply comments to the Second Notice of Inquiry¹ in this proceeding be extended from March 21, 1995, to April 14, 1995. COMSAT represents that its request is supported by American Mobile Satellite Corporation, Iridium, Inc., Loral/Qualcomm Partnership, L.P., and TRW, Inc.

2. This proceeding seeks comment on a broad range of complex and technical issues to assist the Commission in preparing draft U.S. proposals for the World Radiocommunication Conference (WRC-95) to be convened by the International Telecommunication Union

¹ Second Notice of Inquiry in IC Docket No. 94-31, 60 FR 8994 (Feb. 16, 1995).

(ITU) in Geneva, Switzerland from October 23 to November 17, 1995. The FCC Draft U.S. proposals resulting from this proceeding will be considered by the Departments of State and Commerce in forging final U.S. proposals for WRC-95. Final U.S. proposals must be transmitted to the ITU by June 23, 1995.

3. In its request, COMSAT states that it and many other interested parties are now actively participating in preparations for two international meetings taking place later this month relating to WRC preparations; in the Commission's WRC-95 Industry Advisory Committee (IAC); and in preparing comments to the Commission's 2 GHz allocation proceeding.² COMSAT asserts that in view of these activities, and because of the complex nature and significance of the issues posed in the Second Notice of Inquiry, the March 21st deadline does not allow sufficient time for full development of reply comments. In particular, COMSAT notes that it and others are engaged in the U.S. preparations for the Conference Preparatory Meeting (CPM) for WRC-95 that will occur in Geneva from March 22 to April 5, 1995. The CPM will complete a Report to WRC-95 containing technical, operational, and regulatory/procedural information on the WRC-95 agenda items. COMSAT contends that postponing the reply comment deadline until after the CPM's conclusion would enable the parties to incorporate the results of that meeting into their reply comments thereby making them more informative and valuable to the Commission. Finally, COMSAT recognizes that the Commission is under extreme time constraints to draft U.S. proposals in time for negotiation with other government entities. It avers that the requested extension will not disrupt this process nor the IAC's completion of its Final Report due to the Commission on May 1, 1995.

4. Although the Bureau does not routinely grant extension requests, we find that an extension of the reply comment deadline to April 14, 1995 would be beneficial in this proceeding as it would enable the parties to include valuable and potentially critical information learned at the CPM. We ask the parties participating in the CPM to incorporate the results of the meeting into their reply comments and to include, where possible, their views on the likely success of potential U.S. proposals at WRC-95 and where known, the views of foreign delegations. The parties should note, however, that the

Bureau remains committed to complete this proceeding on a timely basis and that no further extensions are contemplated.

5. Accordingly, pursuant to Section 0.261 of the Commission's rules, 47 CFR 0.261, *it is ordered* That the deadline for filing reply comments in response to the Second Notice of Inquiry is extended to April 14, 1995.

Federal Communications Commission.

Chief, International Bureau.
