Meeting Procedures

The following procedures are established to facilitate the meeting:

(5) The FAA will try to accommodate all speakers. If the available time does not permit this, speakers generally will be scheduled on a first-come-first-served basis. However, the FAA reserves the right to exclude some speakers if necessary to present a balance of viewpoints and issues.

(6) Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested at the above number 10 calendar days before the meeting.

The FAA requests that persons participating in the meeting provide five (5) copies of all materials to be presented for distribution to the panel members; other copies may be provided to the audience at the discretion of the participant.

(10) Statements made by members of the meeting panel are intended to facilitate discussion of the issues or to clarify issues. Any statement made during the meeting by a member of the

panel is not intended to be, and should not be construed as, a position of the FAA or JAA.

(11) The meeting is designed to solicit public views and more complete information on proposed harmonization initiatives. Therefore, the meeting will be conducted in an informal and nonadversarial manner. No individual will be subject to cross-examination by any other participant; however, panel members may ask questions to clarify a statement and to ensure a complete and accurate record.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to disapprove a State Implementation Plan (SIP) revision submitted by the District of Columbia pertaining to the regulation of major new and major modified sources locating in the District of Columbia. The intended effect of this action is to disapprove the District of Columbia regulations because they do not meet the requirements of the Clean Air Act. This action is being taken under section 110 of the Clean Air Act. In the Final Rules section of this **Federal Register**, EPA is disapproving the State's SIP revision as a direct final rule without prior proposal because the Agency has determined that the rationale to disapprove this SIP revision strongly supports that decision and anticipates no adverse comments. A detailed rationale for the disapproval is set forth in the direct final rule and in the accompanying technical support document. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by April 24, 1995.

ADDRESSES: Written comments on this action should be addressed to Marcia L.
