

uncertain sediment output from the proposed timber harvest and potential effects on water quality and the lack of a monitoring feedback loop.

ERP No. F-FHW-D40261-WV US 19/ Corridor L Improvements from Nicholas County High School to I-79, Funding and COE Section 404 Permit, Nicholas and Braxton Counties, WV.

Summary: EPA believed that the mitigative measures to offset unavoidable impacts to aquatic and terrestrial resources are insufficient and that noise and visual impact mitigation are not sufficiently described.

ERP No. F-USA-A11072-00 Theater Missile Defense (TMD) Extended Test Range, Demonstration and Operation, Missile Flight Test, Implementation, United States, Republic of the Marshall Islands and Wake Island, Pacific.

Summary: EPA expressed environmental concerns that the final EIS did not properly address alternatives analysis, noise issues, hazardous waste issues, and response to federal and state comments.

Regulations

ERP No. R-DOA-A99201-00 7 CFR Part 335, Plant Pests: Introduction of Non-Indigenous Organisms—Proposed Rule.

Summary: The proposed regulation on the importation of non-indigenous species does not indicate how the Animal and Plant Health Inspection Service (APHIS) intends to deal with the issue of the importation of genetically altered species or with the issue of overlapping authority between APHIS and the Environmental Protection Agency (EPA) with regard to the importation of species used in pesticidal activities. The proposed regulation also does not clearly define the standards which APHIS will apply when making permitting decisions and does not clearly define the information which will be required in a permit application.

Dated: March 21, 1995.

[FRL-5178-3]

Clean Water Act Section 303(d): Availability of List Submission and Proposed Decision

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of lists submitted to EPA by California pursuant to Clean Water Act section 303(d)(2) as well as EPA's proposed approval decision, and requests public comment. Section 303(d)(2) requires that states submit and EPA approve or disapprove lists of waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards and for which total maximum daily loads (TMDLs) must be prepared. EPA is providing this opportunity for the public to review California's lists because California did not provide adequate opportunities for public participation in the development of the lists, as required by Public Participation regulations (40 CFR part 25). EPA will consider public comments in reaching its final decision on California's lists. **DATES:** Comments must be submitted to EPA on or before May 23, 1995.

ADDRESSES: Comments on the proposed decision should be sent to David Smith, Watershed Protection Branch (W-3-2), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105, (415) 744-2012. Copies of the California lists and report explaining the rationale for EPA's proposed decision can be obtained by writing or calling Mr. Smith at the above address. Underlying documentation comprising the record for this decision is available for public inspection at the above address.

FOR FURTHER INFORMATION CONTACT:
David Smith at (415) 744-2012.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish TMDLs according to a priority ranking.

On January 11, 1985 EPA published the Water Quality Planning and Management regulations (50 FR 1775). These regulations included requirements related to the implementation of section 303(d) of the CWA (40 FR 130.7). The regulations did not specify dates for state compliance with the section 303(d) requirements, but reiterated the statutory provision calling for submissions from time to time. On July 24, 1992 EPA published a final rule (57 FR 143) that amended 40 CFR 130.7 to establish that, for the purposes of identifying water quality-limited waters still requiring TMDLs, "from time to time" means once every two years. The list of waters still needing TMDLs must also include a priority ranking and must identify the waters targeted for TMDL development during the next two years.

Consistent with EPA's revised regulations, California submitted to EPA for approval its listing decisions under section 303(d)(2). EPA today proposes to fully approve California's list of waters needing TMDLs, priority rankings, and list of waters targeted for TMDL development during the next two years. EPA solicits public comment on California's lists and EPA's proposed approval decision.

EPA notes that it does not normally solicit public comment on its decisions to approve state section 303(d) lists. Pursuant to the public participation requirements of 40 CFR part 25, EPA is providing this opportunity for public review and comment because California provided inadequate opportunity for public comment during development of its lists. In the future, EPA expects that states will provide adequate opportunities for public comment during development of the state lists.

Dated: March 16, 1995.

Karen Schwinn,

Acting Director, Water Management Division.

FEDERAL EMERGENCY MANAGEMENT AGENCY

Public Information Collection Requirements Submitted to OMB for Review

ACTION: Notice.

SUMMARY: The Federal Emergency Management Agency (FEMA) has submitted to the Office of Management and Budget the following public information collection requirements for review and clearance in accordance with the Paperwork Reduction Act of 1980, 44 U.S.C. chapter 35.

DATES: Comments on this information collection must be submitted on or before May 23, 1995.

ADDRESSES: Direct comments regarding the burden estimate or any aspect of this information collection, including suggestions for reducing this burden, to: the FEMA Information Collections Clearance Officer at the address below; and to Donald Arbuckle, Office of Management and Budget, 3235 New Executive Office Building, Washington, DC 20503, (202) 395-7340, within 60 days of this notice.

FOR FURTHER INFORMATION CONTACT:

Copies of the above information collection request and supporting documentation can be obtained by calling or writing Muriel B. Anderson, FEMA Information Collections Clearance Officer, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472 (202) 646-2624.

Type: New collection.

Title: Standard Hazard Determination (Flood Hazards).

Abstract: The National Flood Insurance Reform Act of 1994 requires development of a form (FEMA Form 81-93, Standard Hazard Determination (Flood Hazards) by FEMA. The form will be used by the lending industry to determine whether or not a structure is located within a Special Flood Area and if flood insurance is available, in accordance with the Flood Disaster Protection Act of 1973.

Type of Respondents: Business or other for-profit.

Estimate of Total Annual Reporting and Recordkeeping Burden: 4,000, 000 hours.

Number of Respondents: 12,000,000.
Estimated Average Burden Time per Response: 20 minutes.

Frequency of Response: Other. The form is completed for any loan made, increased, extended, renewed, or purchased by regulated lending institutions, federal agency lenders, the Federal National Mortgage Association, the Federal Home Loan Mortgage

Corporation, and the Government National Mortgage Association.

Dated: March 16, 1995.

Wesley C. Moore,

Director, Office of Administrative Support.

[FEMA-1046-DR]

California; Major Disaster and Related Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of California (FEMA-1046-DR), dated March 12, 1995, and related determinations.

EFFECTIVE DATE: March 12, 1995.

FOR FURTHER INFORMATION CONTACT:
Pauline C. Campbell, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3606.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated March 12, 1995, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

I have determined that the damage in certain areas of the State of California, resulting from severe winter storms causing flooding, landslides, and mud debris flows on February 13, 1995, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act"). I, therefore, declare that such a major disaster exists in the State of California.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Individual Assistance and Public Assistance in the designated areas. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management
