

uncertain sediment output from the proposed timber harvest and potential effects on water quality and the lack of a monitoring feedback loop.

ERP No. F-FHW-D40261-WV US 19/ Corridor L Improvements from Nicholas County High School to I-79, Funding and COE Section 404 Permit, Nicholas and Braxton Counties, WV.

Summary: EPA believed that the mitigative measures to offset unavoidable impacts to aquatic and terrestrial resources are insufficient and that noise and visual impact mitigation are not sufficiently described.

ERP No. F-USA-A11072-00 Theater Missile Defense (TMD) Extended Test Range, Demonstration and Operation, Missile Flight Test, Implementation, United States, Republic of the Marshall Islands and Wake Island, Pacific.

Summary: EPA expressed environmental concerns that the final EIS did not properly address alternatives analysis, noise issues, hazardous waste issues, and response to federal and state comments.

Regulations

ERP No. R-DOA-A99201-00 7 CFR Part 335, Plant Pests: Introduction of Non-Indigenous Organisms—Proposed Rule.

Summary: The proposed regulation on the importation of non-indigenous species does not indicate how the Animal and Plant Health Inspection Service (APHIS) intends to deal with the issue of the importation of genetically altered species or with the issue of overlapping authority between APHIS and the Environmental Protection Agency (EPA) with regard to the importation of species used in pesticidal activities. The proposed regulation also does not clearly define the standards which APHIS will apply when making permitting decisions and does not clearly define the information which will be required in a permit application.

Dated: March 21, 1995.

Clean Water Act Section 303(d): Availability of List Submission and Proposed Decision

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of lists submitted to EPA by California pursuant to Clean Water Act section 303(d)(2) as well as EPA's proposed approval decision, and requests public comment. Section 303(d)(2) requires that states submit and EPA approve or disapprove lists of waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards and for which total maximum daily loads (TMDLs) must be prepared. EPA is providing this opportunity for the public to review California's lists because California did not provide adequate opportunities for public participation in the development of the lists, as required by Public Participation regulations (40 CFR part 25). EPA will consider public comments in reaching its final decision on California's lists. **DATES:** Comments must be submitted to EPA on or before May 23, 1995.

ADDRESSES: Comments on the proposed decision should be sent to David Smith, Watershed Protection Branch (W-3-2), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105, (415) 744-2012. Copies of the California lists and report explaining the rationale for EPA's proposed decision can be obtained by writing or calling Mr. Smith at the above address. Underlying documentation comprising the record for this decision is available for public inspection at the above address.
