March 21, 1995.

Take notice that on March 16, 1995, Northwest Pipeline Corporation (Northwest) tendered for filing and acceptance as part of its FERC Gas Tariff, Third Revised Volume No. 1, Substitute Original Sheet No. 125, with a proposed effective to coincide with the same effective date ultimately given to tariff sheets previously filed in this docket.

Northwest states that the purpose of this filing is to comply with the Commission's March 1, 1995, Order Accepting and Suspending Tariff Sheets Subject to Refund and Conditions and Establishing Technical Conference (Order). The Order was issued in response to Northwest's January 30, 1995, filing wherein Northwest proposed to implement tariff provisions that would allow Northwest to sell (i) gas that becomes the property of Northwest pursuant to the provisions of terminated transportation or storage agreements or due to tariff provisions relating to interruptible storage or shipper imbalances; and (ii) other de minimis volumes of gas as the need arises.

Northwest states that it has revised "Section 3. Rates and Charges" of Rate Schedule S-1 on Sheet No. 125 by removing the phrase "and such rates and charges shall not be subject to the jurisdiction of the Commission." Northwest states that it also responded in the instant filing to the intervenors' concerns.

Northwest states that a copy of this filing has been served upon Northwest's jurisdictional customers, upon all intervenors in Docket No. RP95-145-000 and upon interested state regulatory commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with § 385.211 of the Commission's Rules of Practice and Procedure. All such protests should be filed on or before March 28, 1995. Protests will be considered by the Commission in

determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

On January 5, 1995, the Commission issued an order in this proceeding granting Transwestern and Natural Gas Pipeline Company of America (NGPL) abandonment authorization under Section 7(b) of the Natural Gas Act (January 5 Order). The January 5 Order authorized the abandonment of Transwestern's and NGPL's natural gas exchange service under Transwestern's Rate Schedule X-7 and NGPL's Rate Schedule X-18, subject to certain conditions including Transwestern making the instant filing. Pursuant to Ordering Paragraph (A), Transwestern herein submits the above referenced tariff sheets to reflect the abandonment of the certificated exchange service under Transwestern's Rate Schedule X-7 set forth in Transwestern's FERC Gas Tariff, Second Revised Volume No. 1 and Original Volume No. 2.

Transwestern respectfully requests that the Commission grant any and all waivers of its rules, regulations, and orders as may be necessary, specifically, but not limited to, Sections 154.22 and 154.63 of the Commission's Regulations, so as to permit the tariff sheets submitted herewith to become effective January 5, 1995, which is the effective date of the Commission's Order issued in Docket No. CP95-65-000.

Transwestern Pipeline Company; Notice of Proposed Changes in FERC Gas Tariff

March 21, 1995.

Take notice that on March 17, 1995, Transwestern Pipeline Company (Transwestern), tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, with a proposed effective date of April 17, 1995:

5th Revised Sheet No. 52

Transwestern states that the above-referenced tariff sheet is being filed to revise Transwestern's quality specifications regarding the percentage of carbon dioxide that will be allowable for gas delivered into its system. Transwestern requests an effective date of April 17, 1995, for this tariff sheet. Specifically, Transwestern proposes to revise § 2.1 (E) and (F) of the General Terms and Conditions of its FERC Gas Tariff that currently provide that gas delivered into its system must contain no more than three percent of carbon dioxide and no more than a combined total of four percent of carbon dioxide plus nitrogen.

Transwestern proposes to modify its tariff language to reduce the percentage of carbon dioxide from three percent to two percent and reduce the percentage of carbon dioxide plus nitrogen from four percent to three percent. Transwestern seeks these modifications in an effort to conform its quality specifications for the allowable percentage of carbon dioxide with those percentages of pipelines upstream and downstream of Transwestern's system as well as to conform with the gas quality specifications of pipelines with

which it competes in providing transportation services. Such modifications will also result in safer and more efficient pipeline operations on Transwestern's system.

Transwestern states that copies of the filing were served on its gas utility customers, interested state commissions, and all parties to this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before March 28, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.
